MESSAGE FROM THE SENATE.

Mr. Speaker:

I am directed to inform you that the Senate has passed the following bill, in which the concurrence of the House is requested:

**S. B. No. 141** — Mr. Ritter.

Relative to the officers and employes of the Ohio Soldiers' and Sailors' Orphans' Home.

Attest:

W. E. HALLEY,  
Clerk.

Said bill was read the first time.

The Speaker handed down the following communications from the governor:

To the General Assembly:

I respectfully return to you **H. B. No. 196** with my disapproval.

A thing to be guarded against is duplication of governmental activities and I very much fear that this bill would encourage what ought to be avoided in that respect.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

To the General Assembly:

I respectfully return **H. B. No. 43** which amends section 4715 of the General Code, with my disapproval.

When we reflect upon the financial condition of many of the school districts in the state, prudence would seem to suggest that burdens should be diminished rather than added to.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

The House then passed to the second order of business, being resolutions and motions.

Mr. Wiest offered the following resolution.

**H. J. R. No. 59** — Mr. Wiest.

Relative to a single standard of time for the state.

WHEREAS, The Federal Railroad Administration at the request of the Interstate Commerce Commission has extended Eastern time to all railroads and stations in the state east of the line of the Hocking Valley Railroad and the Sandusky Short Line of the Pennsylvania Railroad; and

WHEREAS, This extension of Eastern time together with the extra hour of daylight provided for by an act of Congress for the summer months means a difference in time of two hours for the people of the eastern half of the state; and

WHEREAS, Some cities in the state have changed their time to conform with that of the railroads and some have refused and much confusion has resulted from the various standards of time being used; therefore,

*Be it resolved by the General Assembly of the State of Ohio,* That the Federal Railroad Administration in conjunction with the Interstate Commerce Commission be requested to take whatever action may be necessary to provide central standard time on the railroads of the state,

*Be it further resolved,* That a copy of this resolution be forwarded to each of the Federal bodies before mentioned.

The resolution was laid over under the rule.

**H. J. R. No. 63** — Mr. Jas. A. Reynolds.

Proposing an amendment to section 22, article II, of the Constitution of the state of Ohio, relative to appropriations and providing for the adoption of a state budget system.

*Be it resolved by the General Assembly of the State of Ohio, three-fifths of the members elected to both houses concurring therein:*

**SECTION 1.** That there shall be submitted to the electors of the state, in the manner provided by law, on the first Tuesday after the first Monday in November, 1920, a proposal to amend section 22, of article II, of the Constitution of the state of Ohio to read as follows:

Sec. 22. As soon as practicable after the convening of the regular session of the General Assembly, and not later than the first day of March, the governor shall transmit to the General Assembly a budget covering all departments of the state government and all purposes to which state funds are to be applied for the two next succeeding fiscal years. The budget shall include:

1. Comparative statements showing income, expense of operation and of maintenance, and cost of assets acquired—(a) actual for the three preceding fiscal years; (b) estimated for the current fiscal year; and (c) estimated and recommended by the governor for each of the two ensuing fiscal years.

2. Comparative balance sheets showing the financial condition of the state government—(a) actual as at the end of the four preceding fiscal years; (b) estimated as at the end of the current fiscal year; and (c) estimated as recommended by the governor as at the end of each of the two ensuing fiscal years.

3. Statements showing work performed and results accomplished during the three preceding fiscal years; outlining the policy and program of work for the two succeeding fiscal years; furnishing full explanations of expenditures and estimates, especially with reference to increases; and presenting recommendations for changes in laws required for greater efficiency and economy.

4. A bill embodying and constituting the governor's recommendations for appropriations for each of the two succeeding fiscal years.

All departments of the state government shall assist the governor in the preparation of the budget in such manner as he may request. The governor may provide for public hearings and may require the attendance at such hearings of representatives of all departments, agencies and institutions, applying for state moneys. After such public hearings, he may in his discretion revise all estimates. The budget shall be in printed form, and copies shall be available for each member of the General Assembly and in reasonable number for public distribution. When received by the General Assembly the budget shall be referred to a joint committee on appropriations of the Senate and House of Representatives. The joint committee shall provide for public hearings and may require the attendance at such hearings of representatives of all departments, agencies, and institutions applying for state moneys. The governor and such representatives of the executive departments, boards, officers and commissions of the state expending or applying for state moneys, as have been designated by the governor for this purpose, shall have the right, and when so requested, it shall be their duty to appear before either house of the General Assembly and be heard with respect to any appropriation bill during the consideration thereof, and to answer inquiries relative thereto. No appropriation other than the general appropriation act shall be valid unless it shall provide the revenue necessary to meet the appropriation therein made, by a tax to be laid and collected as shall be directed in said bill. No appropriation shall be made in excess of the estimated income provided by law. No appropriation for any purpose shall be made in excess of the amount recommended by the governor for such purpose, or for any purpose not recommended by the governor; provided, however, that this restriction shall not apply to appropriations for the legislative and judicial branches of the state government. No money shall be drawn from the treasury, nor shall any

obligations for the payment of money be entered into except as authorized by specific appropriations made by law. No appropriation shall be made for a longer period than two years, nor shall any appropriation authorize the creation of obligations upon the state except during the fiscal year to which such appropriation relates; but when obligations have been properly created and remain unpaid at the close of a fiscal year, payments may be made to meet such obligations without further appropriation. An accounting system and classification of accounts shall be prescribed by the auditor of state, which system of accounts and classification shall be such as to distinguish outlays increasing the assets of the state from expenditures for operation or maintenance purposes. The budgetary estimates, reports and statements shall be compiled, and the appropriation accounts shall be kept in accordance with such classification; but additional data may be presented and additional accounts may be kept, in the discretion of the governor. All estimates, reports, and records relating to the budget and appropriations shall be open to public inspection, and all meetings of the joint committee of the General Assembly or of either house at which the budget or appropriations are considered or acted upon, shall be open to the public. The General Assembly may, from time to time, enact such laws, not inconsistent with this section, as may be necessary and proper to carry out its provisions.

The Speaker of the House, in the presence of the House, signed said bills.

The Speaker handed down the following communication from the governor:

To the General Assembly:

I return **H. B. No. 162** with my disapproval.

I would be singularly lacking in my duty to the people of this state not to recite the history of this measure from its outset. It was not written within legislative halls; it was prepared outside and by agencies almost if not altogether devoted to highway activities. Every selfish interest which saw an opportunity to participate shared in the authorship. As originally drawn, it upset existing law with a brazen indifference to common honesty; a section was included to let bonding companies escape the responsibility of contracts made with the state, permitting vast losses to fall upon the public treasury.

As now written, this bill violates a time-honored precaution of permitting neither contract nor disbursement for public uses until all

the moneys requisite for the project are in the fund. The supreme court time after time has made the observation that this part of the statute must be preserved in spirit and in letter because of its beneficently protective features. It is intended now, if this bill becomes a law, to purchase road machinery by the payment of one-third cash—the rest is to be bought on time. There is entirely too much of a disposition present to provide for the needs or the desires of the hour by the creation of a debt.

There are some very good things in the bill, and I personally urged the members of the Senate committee having it in charge to separate them from the odious features in order that meritorious sections might not be lost. This was agreed to, but a collaboration has ensued since and the bad is now inseparably associated with the good. Regardless of other considerations, the counties of small resource which otherwise would be unable to meet on a fifty per cent. basis the funds advanced by the federal government are entitled to relief. Common justice demands it, and I am heartily in favor, and have so expressed it to the Senate committee, of permitting the levying of a mill without reservation, for this purpose.

Serious fault cannot be found with an increase in the state levy, but when we go further, we are indulging in a generosity with the people's money that sound business principles cannot endorse.

The average tax rate in the state in 1918 was 13.68 mills. This bill makes it possible to increase the rate in every county 3.20 mills, bringing the total average in the state up to 16.88 mills. Carried into mathematics which will be understood, this means that the average tax will be \$16.88 per one thousand dollars of valuation. It is well to reflect upon these figures particularly since there seems to be more or less insistence on giving to cities and other local subdivisions the unfettered right to pay off existing deficiencies and to take care of deficits which are not present now, but which can be created this year under authority in contemplation.

I hazard the statement that unless a check is applied somewhere, the bills which your honorable body proposes to enact into law will carry an increase approximating five mills in some parts of the state. It is a burden which cannot be defended, and the unrest which it will create in discouraging home owning is as certain as the coming of the day.

Cast your eyes to those parts of the world where civilization is threatened by the restless spirit that has possessed the masses. Every student of disordered conditions in Mexico agrees that the trouble is fundamental, and grows out of the fact that the land is not owned by the people. Need I remind you that there are no two opinions with reference to the significance of symptoms in Russia—the peasants want to possess land. There is a psychology about the whole thing that cannot but impress one who applies his mind seriously and conscientiously to the question. Once a citizen through industry and thrift accumulates means, and then in pride transfers it into a home of his own, he is moved by instincts which while inherent have been inactive. When he recognizes that the property which is his own will be protected for him, and in an orderly way be preserved for and transferred to his children by government, his whole mental attitude toward our institutions becomes more friendly. That is the ruling objective in the mind of every man with any outlook. Instead of legislation tending toward weightier burdens on our home owners, it should be our endeavor to reduce them.

While quite apart from the merits of this measure, it should be stated that a misleading campaign has been maintained for it. Automobile clubs, chambers of commerce, boards of county commissioners, — citizens generally have been urged through an ingenious propaganda to wire the governor of the state, recommending that this bill be approved. With it has gone the naked statement that it will promote the cause of good roads and that it will enable the counties to match the appropriations of federal government. Nothing is said about the possibilities that stagger, including a tax rate that can find no parallel in the past.

I would be false to my every concept of duty if I did not veto this bill because it menaces the cause of good roads. It will lead to stagnation and congestion in construction work. We will have more money than can be safely spent throughout the year. It will lead to extravagance and other abuses, and is calculated to set the whole movement back for a decade at least.

JAMES M. COX,  
Governor.

## MESSAGE FROM THE SENATE.

Mr. Speaker:

I am directed to inform you that the Senate has passed the following bill, in which the concurrence of the House is requested:

**Am. S. B. No. 185**—Joint Committee on Taxation.

Attest:

W. E. HALLEY,  
Clerk.

Said bill was read the first time.

On motion of Mr. Beetham the constitutional rule requiring bills to be fully read on three different days was dispensed with, and **Am. S. B. No. 185**—Joint Committee on Taxation, was read the second time by its title.

On motion of Mr. Beetham the constitutional rule requiring bills to be fully read on three different days was dispensed with, and **Am.**

**S. B. No. 185** — Joint Committee on Taxation, was ordered placed on the calendar for third reading.

The Speaker handed down the following message from the governor:

To the General Assembly:

An examination of the provisions of **H. B. No. 132** reveals the fact that it amends section 5707 of the General Code and repeals the original section of that numbering while the intention, undoubtedly, was to have the act apply to section 5706 instead.

For this reason and bearing in mind the decision of our Supreme Court in the case of *The Christ Brewing Co. vs. Schultz*, Treasurer, I herewith respectfully return the bill to the house of its origin with my disapproval.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

The Speaker handed down the following message from the governor:

To the General Assembly:

I am returning to you **H. B. No. 492** with my disapproval.

To be entirely frank, I do not know but what this bill is a step in the right direction. For a considerable time I have been investigating conditions at Wilberforce, the institution to which this measure relates. It is perfectly apparent that some reorganization must be made, but factional feeling within the place has assumed such a temper that it is really difficult to get at basic conditions.

It is my purpose to ask two competent authorities within the state to visit Wilberforce within the next few weeks. It is also planned to have Dr. R. R. Moton, of Tuskegee Institute, in Alabama, or someone else of his type, join in the survey work. Their recommendations will be submitted to your honorable body in abundant time for legislative action during the present calendar year. Pending this, the maintenance of the present status quo would seem to be desirable.

In this spirit, I return the bill to you, and respectfully request that things stand as they now are until we can all act from a more intelligent view of the situation.

JAMES M. COX,  
Governor.

Mr. Beetham moved that further consideration of said communication be deferred.

The motion was agreed to.

The Speaker handed down the following communication from the governor:

To the General Assembly:

I herewith return to you **H. B. No. 497** with my disapproval.

I do this with the express consent of the House Committee on Appropriations and Finance and for the reason that the salaries provided for in this bill are taken care of in another measure.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

The Speaker handed down the following communication from the governor:

To the General Assembly:

Many years ago the supervision of the state house was in the hands of an officer known as the comptroller of the treasury. This office was abolished in 1876, at which time the control of the capitol was transferred to the adjutant general in whom it has remained ever since. Owing to the fact that the growth of the state's business required additional office rooms outside of the state house, the law was amended in 1915 so as to read as follows:

Sec. 146. By virtue of his office the adjutant general shall be superintendent of the state house. He shall have the supervision and control of the state house and heating plant therein, the fixing and placing of all offices, commissions, departments and bureaus of the state therein, and full control and supervision of fixing and placing all offices, commissions, departments and bureaus of the state in offices, buildings and rooms outside the state house when the same cannot be placed therein, materials and persons employed in and about the state house, the grounds and appurtenances thereof and all work or materials required in or about them. He shall rent all offices, buildings and rooms for all offices, commissions, departments and bureaus of the state located outside the state house and execute all leases in writing for the same on behalf of the state subject to the approval of the governor and deposit a copy thereof in the office of the secretary of state within ten days after the lease has been executed."

**H. B. No. 448** attempts to take away from the control of the adjutant general those parts of the state house assigned to the General Assembly and which, being unoccupied while the legislature is not in session, can at such intervals be used to great advantage by other activities of the state, a use which results in economy by way of saving rent. I think on reflection you will realize the confusion if not the complication that would grow out of a divided authority in the custodianship of the state house.

Attention should also be called to the fact that the bill repeals section 124 of the General Code which has to do with notaries public and is not germane to the subject matter of the measure.

For these reasons I must respectfully disapprove the bill and return it to the houses of its origin.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

The Speaker handed down the following communication from the governor.

To the General Assembly:

**H. B. No. 81** provides for the abandonment of a portion of the Miami and Erie canal in Lucas county and for the sale or lease of the portion so abandoned, by the state to the city of Toledo.

The bill itself recognizes the possibility that the land so to be conveyed may be required by the state in the event of the construction of a ship or barge canal by the government of the United States under the provisions of a pending measure in Congress known as the Welty act. An amendment was inserted reserving to the state the right to maintain title to such part of the state property described in the bill as may be needed for such canal. Such reservation is limited, however, only to land needed for construction purposes under the Welty bill.

If the proposal now under consideration in congress is not adopted, then the limitation in question is without any force. I am in complete sympathy with the suggestion that the canal bed be used by the city of Toledo for the purpose either of promoting a park plan, or added safeguards in sanitation, but at the same time, we must not close our eyes to the possibility of a waterway project which will require entrance to the lake. For that reason no obstacle must be placed in the way of the state if the improvement eventuates. There is a further provision that if the present course of the canal is the least available for the lake outlet in question, the city of Toledo must guarantee by bond given, another route decided upon by the federal or state government. This arrangement, however, seems to be rather obscure, and I doubt very much whether the city of Toledo is obligated beyond the amount of the bond named.

Coming in few words to the crux of the whole thing, we should encourage the municipality in question but we must protect the state to the extent of guaranteeing a northerly outlet for the canal, if needed. The contractual relation between the state and the city must be so clear that if an enterprise alike or similar to the one now being considered by congress is carried out, the waterway must be provided by the city of Toledo. If there is no possibility of an evolutionary development such as we describe, then it is best that the canal bed be put to the use contemplated by the city. If, on the other hand, a barge canal is built, the city must give to the state the same facilities of transportation which this bill conveys.

In its present form, I am compelled to return House Bill No. 81 with my disapproval.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

The Speaker handed down the following communication from the governor:

To the General Assembly:

I am returning to you **H. B. No. 387** with my disapproval.

The primary purpose of this bill was to give to boards of park commissioners added authority in the matter of acquiring swamp and submerged land. Unfortunately it goes further and creates the opportunity to increase the rate of taxation. Because of the second feature named, I withhold executive approval.

JAMES M. COX,  
Governor.

On motion of Mr. Beetham further consideration of said communication was deferred.

The Speaker handed down the following communication from the governor:

To the General Assembly:

A study of **H. B. No. 38** forces the conclusion that the words "building, or buildings" as they appear in the first line of the second paragraph, have been used through some misconception and as a result the benefits sought by the measure are endangered.

In order that this may be corrected I respectfully return the bill with my disapproval to the House in which it originated.

JAMES M. COX,  
Governor.

On motion of Mr. Kay further consideration of said communication was deferred.

Mr. Huber moved that **H. B. No. 43** — Mr. Huber, be taken up and considered now.

The motion was agreed to.

By unanimous consent the following report was submitted.

To the General Assembly of the State of Ohio:

As provided in Resolution No. 47 your committee visited the Base Hospital at Camp Sherman on April 13, 1919, and beg leave to submit the following report:

We were cordially received by the camp adjutant general and by him introduced to Major McKnight, in charge of the base hospital, who also cordially received us. Major McKnight and Major Pressnell gave us their entire time for the balance of the day.

The following was the personnel at the hospital on that day:

Officers .....	79
Nurses .....	122
Student nurses .....	54
Civilian employes .....	604
Patients .....	1606
Detachment men .....	588

Your committee was very much gratified at the excellent condition in which we found everything. We visited nearly every ward and department of the hospital. The buildings are well lighted and ventilated and the hospital is splendidly equipped with every kind of up-to-date surgical and other appliances. They have special departments of dentistry; ear, nose and throat; physical therapy and numerous other departments.

They are equipped with circulating libraries, which are taken into the various wards daily. There is a mess hall for convalescent patients that is supplied by a well equipped and sanitary kitchen. There is a special kitchen for the sick who are not able to attend mess where delicacies are prepared and cooked by trained nurses and taken in to the boys.

They also have a gymnasium for use of the boys. The Red Cross House at the base hospital is equipped with all kinds of games, newspapers and periodicals for the use of the soldiers. This is a very large hall where the soldiers are privileged to come at any time. Whenever the convalescent patients wish to take a ride the Red Cross furnishes machines.

The hospital has a well equipped fire fighting apparatus. They were called out for an exhibition for our benefit. Five engines responded and they were throwing water in a minute and a half. They have never had any serious fires at the camp.

The base hospital is also equipped for vocational training; they have courses in typewriting and stenography, accounting, book keeping, wood working, machinery, drawing, type setting with linotype machines and various other departments.

The soldier boys were all very much pleased to see us and all seemed to be happy, notwithstanding their wounds. Every one questioned said he was well treated and had everything that anybody could wish for.

The committee wish to express to General Glenn and Major McKnight our appreciation of their courteous treatment and attention while at the camp.

Major McKnight said that the only thing the boys lacked was home-made jellies and preserves and that the people were sending a few of those in but he was anxious that they should receive them a little more frequently.

The chairman of the committee was authorized by General Glenn to extend an invitation to the General Assembly to visit the camp in a body before we recess.

## MESSAGE FROM THE SENATE.

Mr. Speaker:

I am directed to inform you that the Senate has concurred in the passage of the following bill:

**Am. H. B. No. 442** — Mr. Copeland.

To create boards of trustees of the sinking fund in the several counties of the state, provide for the appointment of the members thereof and define the powers and duties of said boards.

With the following amendments in which the concurrence of the House is requested:

Strike out all after the enacting clause and in lieu thereof insert the following:

SECTION 1. In each county owning a bonded debt, there shall be a board designated as the trustees of the sinking fund, to be composed of the prosecuting attorney, the county auditor and the county treasurer. The prosecuting attorney shall be the president of such board and the county auditor shall be the secretary thereof.

SECTION 2. The trustees of the sinking fund shall provide for the payment of all bonds issued by the county and the interest maturing thereon. All taxes, assessments and other moneys collected for such purposes, or held in the county treasury to the credit of the sinking fund, shall be subject to investment and disbursement by them in the manner provided by law. For the satisfaction of any obligation under their supervision, the trustees of the sinking fund may sell or use any of the securities in their possession or disburse any of the money under their control.

SECTION 3. Immediately after each semi-annual settlement of taxes and assessments the county auditor shall report to the trustees the amount in the treasury of the county to the credit of the sinking fund.

SECTION 4. The trustees of the sinking fund shall invest all moneys subject to their control in bonds of the United States, the State of Ohio, or of a municipal corporation, school district, township or county of the state, and hold in reserve in cash only such sums as may be needed for effecting the purposes of this act.

SECTION 5. The meetings of the trustees shall be open to the public and all questions relating to the purchase or sale of securities or the payment of bonds or interest shall be decided by a ye and nay vote, which shall be recorded on their journal.

SECTION 6. Money shall be drawn from the county treasury for investment or disbursement by the trustees of the sinking fund by the issuance of a voucher signed by all the members of the board and directed to the county auditor, on which a warrant shall be drawn on the county treasurer, payable from the proper fund. All moneys received by such trustees shall be paid into the county treasury to the credit of the proper fund on the certificate of the county auditor. All securities held by such trustees shall be deposited with the county treasurer. When so deposited they shall be withdrawn only upon the written application of all the members of the board and in the presence of two of them.

SECTION 7. The trustees of the sinking fund shall keep a full and complete record of their transactions, a complete record of the funded debt of the county specifying the dates, purposes, amounts, numbers, maturities and rates and maturities of interest installments thereof, and where payable, and an account exhibiting the amount held in the sinking fund for the payment thereof.

SECTION 8. Before they become valid in the hands of any purchaser, all bonds issued by the county shall be recorded in the office of the trustees of the sinking fund, and shall bear a stamp containing the words "Recorded in the Office of the sinking fund trustees" signed by the secretary.

SECTION 9. On or before the first Monday in May of each year, the trustees of the sinking fund shall certify to the board of county commissioners the rate of tax necessary to provide a sinking fund for the payment at maturity of bonds issued by the county and for the payment of interest on bonded indebtedness. The amount so certified shall be set forth in the annual budget of the county commissioners without diminution.

SECTION 10. When the county commissioners issue bonds, they shall first offer them at par and accrued interest to the trustees of the sinking fund, who may take any or all of them at such price, if they have moneys available in the sinking fund therefor.

SECTION 11. Sections 2609 to 2614, inclusive, of the General Code, and an act entitled "An Act authorizing county commissioners to invest sinking funds in bonds of the United States, the State of Ohio or of any municipal corporation, school township or county bonds in this state" (H. B. No. 116) passed February 27th, 1919 and approved March 5th, 1919, are hereby repealed.

SECTION 12. Immediately upon the taking effect of this act, the county auditor shall make, for the use of the trustees of the sinking fund, a full and detailed statement of the outstanding indebtedness of the county for bonds issued, and the money in the county treasury to the credit of the sinking fund or funded debt account.

The question recurring upon the motion that the House insist upon its amendments to **S. B. No. 185**—The Joint Committee on Taxation, and asks for a committee of Conference.

The motion was not agreed to.

The joint legislative committee in investigation of certain bribery charges submitted the following privileged report:

#### REPORT OF JOINT LEGISLATIVE COMMITTEE IN RE INVESTIGATION OF CERTAIN BRIBERY CHARGES.

Your committee begs to report, that pursuant to authority vested in it by Senate Joint Resolution No. 32, it organized on the 20th day of March, 1919, by selecting Senator Whittemore as chairman and Representative Hopple as secretary. Said committee called to its assistance Attorney General Price and at its first meeting extended an invitation to the Prosecuting Attorney of Franklin County, Mr. Schlesinger, to sit with said committee at its hearings.

The committee held a number of meetings at which numerous witnesses were examined, and a general investigation and opportunity given for any and all persons, having any information or facts bearing upon the matters which the committee sought to investigate, to come before the committee and disclose such information or facts. The last witnesses were examined just before the recess of the General Assembly on May 10th, and a total of eleven witnesses were examined.

The scope of our investigation covered all sources of information from which we could secure the slightest evidence of fact, touching any attempt or consummated bribery as related to any member of the House or Senate; the raising of any sum or sums of money by any individual, organization or interest, for the purpose of improperly or corruptly influencing legislation at this session; the nature, kind and purpose of bill introduced in both branches of the present General Assembly, with particular reference to any such act as might answer the description of what is known as a "milker"; the character, extent and basis of rumors, insinuations and innuendo of misconduct and illegal acts of members of the House and Senate and others, the newspaper articles which gave publicity to such rumors, insinuations and innuendo and the authors of such articles.

We regret to report that, from the evidence submitted to us, the committee feels justified and warranted in finding that one member of the House of Representatives, Frank Delehanty, of Cuyahoga County, has been guilty of such conduct, in connection with a certain bill which was before both houses of the General Assembly, that some action should be taken by the House of Representatives in his case.

The testimony shows that Mr. Delehanty made certain requests and statements to one Dr. Russell Skeels as to House Bill No. 80, known as the non-medical bill. It apparently being the purpose of Mr. Delehanty to obtain some consideration for his efforts, either in assisting in the withdrawal of certain opposition to the bill or for his support of the same or both.

Your committee therefore recommends that, in view of all of the testimony and evidence in this connection, presented to this committee, that the House of Representatives take such action as may be necessary looking to the censure or expulsion of Mr. Frank Delehanty.

We further recommend that the attorney general of the state of Ohio and the prosecuting attorney be furnished with a copy of the evidence in this connection, so that they may take any action which they may deem proper or desirable in the premises.

There is no testimony whatever which would have any weight in a court of justice implicating any member of House or Senate, other than Mr. Delehanty. On the contrary, each and every other member of the General Assembly, in so far as the record discloses, as we have been able to ascertain, has conducted himself strictly as comports with the dignity, duties and demands of the responsible office which he holds.

There is no foundation, in fact, so far as your committee can discern, upon which to base the charge that bills have been introduced at this session of the General Assembly, known as "milkers", nor have any bills been used as such; nor that any one outside the General Assembly has in the least attempted to influence legislation at this session improperly or corruptly.

This investigation was made necessary primarily because of positive assertion in certain newspapers in Ohio, that the present legislature was largely corrupt; that its members, referring to them generally, were guilty of illegal conduct and that others outside of the legislature were openly exerting influence for or against legislation for compensation; that numerous bills of various kinds had been introduced, known as "milkers", which had only one purpose, viz. "to hold somebody up to defeat them;" that all of these acts so charged were brazen and so well understood generally that even those who had only "passed through the kindergarten of politics" knew that so-called "higher-ups" were controlling the legislature and that they were not doing it for nothing. That the condition was the most dangerous in the history of legislation.

The original article, which is also shown to have been the reservoir from which other newspapers drew their supply, is identified as an editorial prepared by George F. Burba, editor of the Columbus Dispatch, and carried in that newspaper under date of March 11, 1919, and is found on page 109 of the record.

Notwithstanding this unprecedented arraignment of the members generally of the 83rd General Assembly, Mr. Burba admits under oath, that he did not know, nor had he ever heard of any bill which had been introduced at this session which had the purpose or effect of extortion from any individual organization or interest; that he had not heard of any member of either House, excepting Mr. Delehanty, (whose name he certainly did not have in mind) specifically connected up with any conduct which could be termed dishonest or illegal; that the only justification which he could offer for his specific and sweeping charges of graft, dishonesty and vicious practice, was general report, not one word of which could be authenticated, nor had the author one scintilla of proof which he could furnish. He admitted that he had nothing he could present to the committee to assist it in its work, that his article was founded upon rumor, and that it was impossible for him to prove a single thing he made in the charge (referring to the editorial of March 11th) by a single witness.

The whole record of Mr. Burba's testimony is a revelation of complete and positive lack of knowledge of facts relative to the most vital and dangerous subject, concerning which he wrote with such apparent authority.

The conduct of Mr. Delehanty is to be deplored. By an overt act he stultified himself and for this he alone may suffer.

Mr. Burba, by innuendo, conjecture and from the figment of a vivid imagination flaunts specific charges, utterly groundless against the General Assembly as a whole and thus attempts to put each and every member thereof under a cloud of suspicion.

It is to be greatly deplored that any man of culture, literary attainment, mature experience and wide connection with people, the editor of a newspaper with a large circulation the purpose of which is to mould public opinion and furnish the news to our citizens and people generally should publish this or any other article so absolutely unfounded in fact, the only purpose of which can be to cause the people to lose faith in the men whom they have chosen to represent them, as well as to ruin their character and reputation. Intelligent and justified criticism is always proper and desirable and tends to correct fault and error, but false, derogatory and misleading articles, such as above referred to, published with reference to public men and officials can only serve to create distrust on the part of the people not only in the men attacked but the very form of government on which our security depends.

The committee is of the opinion, from the testimony, that Senator Wright, so far as his name is concerned in connection with the Delehanty case that his conduct was such that he is, in our judgment, completely and fully exonerated of all charges and suspicion in the Delehanty matter, or in connection with the consideration of the Non-Medical Practice Bill, and the committee is further fully convinced that Senator Wright was actuated by no other motive than that of opposition to this bill from its inception.

The testimony of Dr. Russell H. Skeels, as developed at the hearing before the committee, and his conduct as a lobbyist as disclosed by his own testimony is not sufficiently convincing or clear to the extent of satisfying the committee that he was wholly without fault in connection with the Delehanty case.

The committee presents a complete transcript of the testimony taken and of its proceedings, which is filed herewith; and we recommend that the report of the committee together with its findings of fact and conclusions be printed in the appendix of the journal and that the transcript of the testimony be filed with the Clerk of the Senate.

Respectfully submitted,

F. E. WHITTEMORE,  
JAMES R. HOPLEY,  
RUPERT BEETHAM,

C. C. CRABBE,  
E. J. HOPPLE,  
J. E. HOLDEN.

#### MESSAGE FROM THE SENATE.

Mr. Speaker:

I am directed to inform you that the Senate has ordered the return of **Am. H. B. No. 526** — Mr. Crabbe, for correct engrossment as the emergency clause of this bill has not been stricken out.

Attest:

W. E. HALLEY,  
Clerk.

Mr. Beetham moved that **Am. H. B. No. 526** — Mr. Crabbe, be properly engrossed and returned to the Senate.

The motion was agreed to.

The Speaker of the House, in the presence of the House, signed **Am. S. B. No. 185** — The Joint Committee on Taxation, having passed the House, with the constitutional majority notwithstanding the objections of the governor.

Mr. Griswold called up his pending motion entered upon the journal to reconsider the vote whereby **S. B. No. 100** — Mr. Berry, was passed.

The motion was taken up, the question being, "Shall the vote be reconsidered?"

Which was agreed to.

The question recurring, "Shall the bill pass?"

Mr. Robinson moved to amend as follows:

In line 104 insert after the word "it" the following: "Any reference herein to any existing office or officer, whether by title or designation as now fixed by statute, or by any ex-officio designation or title in this act provided, shall be deemed to refer to the provisions of this act only, and the statute designation and ex-officio title shall be deemed synonymous."

In line 290 after the word "demand", insert the following: "But if the proceedings for an improvement be commenced in the court of common pleas by the petition of the county commissioners, then if the petition be granted and the improvement be located by the decision and order of the court, if any party to such proceeding or any person affected thereby, shall file claim for damage to property affected or for compensation for property taken therefor, if any party to said proceeding resists the claim as made, the court shall, unless trial by jury be waived by claimant and contestant submit the same at the earliest convenient day to a jury for determination, as in an action for a money demand, and render its judgment as to such claim upon the jury verdict, as in other jury trials in which trial, and to which verdict the respective parties may save exceptions, file motion for new trial and prosecute error to the court of appeals as in ordinary actions at law. The verdict of the jury in such case shall fix the amount to be paid as damage or compensation, and costs of such trial shall be taxed as in trials for condemnation of property under the provision of law. Upon rendition of judgment the court shall authorize the payment of the same as is above provided in case of determination by the commissioners."

In line 281 strike out "or the court".

In line 787 after the word "decision" insert "or judgment".

Strike out all of Section 33 and insert in lieu thereof the following: "Section 33. Any interested party to an improvement proceeding under this act, or any number jointly interested, may appeal from any final decision or order made therein, by a board of county commissioners, to the common pleas court of the county wherein the proceeding was instituted. And if the county commissioners of any county be a party, and the proceeding was commenced originally in the common pleas court, then any interested party may appeal from any final order or judgment of such common pleas court granting, refusing or locating the improvement petitioned for, to the superintendent of public works as the drainage commissioner provided for in a subsequent section of this act.

Notice of appeals herein provided for may be given at the time the decision, order or judgment is made or rendered, and noted by the commissioners or court on their minutes or docket; or written notice of such appeal may be filed in writing within three days from the date of the decision, order or judgment, with the county auditor, or clerk of court, as the case may be. But if the decision be rendered in the absence of parties interested, notice of appeal shall be entered for them as a matter of course, by the county commissioners or court."

Strike out all of section 34, and insert in lieu thereof the following: "Section 34. To perfect appeal, the appellant shall within ten days from the date of the final order appealed from, file with the county auditor, if the appeal be from the decision or order of the county commissioners, and with the clerk of the common pleas court, if it be from the decision, order or judgment of the court, an appeal bond, with surety to be approved by the auditor or clerk, as the case may be, conditioned to pay all costs on appeal if the decision, order or judgment appealed from be sustained on the hearing or trial thereof. Within said ten days the appellant shall also file in the court or with the drainage commissioners, to whichever the appeal is taken (wherein it shall be docketed as are other civil cases, and entitled in the matter of the improvement known as—giving by name and number, if it have one—), a concise statement of the decision, order or judgment appealed from, and the grounds of such decision, order or judgment as entered of record, and the claims of the appellant as to the error or injustice thereof; and on default of such bond and pleading being filed within said ten days said appeal shall be without effect and shall be dismissed at the cost of the appellant."

Strike out all of Section 35 and insert in lieu thereof the following: "Section 35. If said appeal be perfected, the auditor or clerk, as the case may be, shall within ten days from the filing of the appeal bond and statement, make and file in the appellate court or with the drainage commissioner, a full transcript of the journal entry containing the finding and decision appealed from, with the original petition and engineer's report, assessment or such other original papers as are pertinent to the appealed issue. The issue for hearing or trial shall be deemed to be made by the original petition, the said statement of the appellant and the entry of the decision appealed from, and all parties to the proceeding not joining with the appellant in the appeal shall be considered defendants, and prima facie opposed thereto. No answer need be filed by any defendant. But after appeal has been perfected by any party, any other interested party may by motion made in person, or by counsel, oral or written, in session or at chambers, be entered on the record and considered as joined in interest with the appellant, and in such case, shall, with appellant, be bound for costs, if the decision, order or judgment appealed from be sustained."

Strike out all of Section 36 and insert in lieu thereof the following: "Section 36. Trial or hearing of said appeal on the issue made shall be had under the rules of law for civil cases, so far as the same are applicable, the appellants being considered as plaintiffs having the affirmative, and being required to produce the preponderance of evidence to reverse or modify the decision, order or judgment appealed from. If the appeal be from a board of county commissioners to a common pleas court, and be from a decision or order for or against the location or construction of an improvement, or an assessment for

benefits, the same shall be heard by the court as a case in equity; but if the decision, order or judgment appealed from be for the payment of, or the refusal to pay, a sum of money in compensation for property taken for such improvement, or as to damages to property affected thereby, the trial shall be to a jury as for a money demand.

If the appeal be from a court of common pleas to the drainage commissioner, the same shall be heard and decided by said drainage commissioner, or his official board of appeal, if he summon the same, as in this act provided, as are equity cases in courts having such jurisdiction.

So far as consistent with the rights of others, appeals under this act, shall by the trial court, or drainage commissioner, be given precedence over other matters. The common pleas court, when the case is triable by jury, may at the request of plaintiffs or defendants, under rules as in other civil cases, have the jury view the location of the improvement, and the expense of such view shall be taxed as are other costs upon the appeal.

Strike out all of Section 38 and insert in lieu thereof the following: "Section 38. The jury shall, upon the case being submitted to it, under the proper charge of the court, and upon a form provided by the court, return its verdict determining the matter in issue appealed from, upon which judgment shall be rendered by the court as in other cases. The verdict shall be signed by the jury as is provided by law, and by at least nine of the panel to make the same effective. The amount of the compensation or damage to be paid, if any, is the issue to be determined by the jury, and it may sustain the award that has been appealed from, or if it does not find such amount to agree with justice and equity determine the amount which upon the facts put in evidence does so accord. In case such amount differs from the award appealed from, the difference shall be pro-rated by addition or reduction from the assessment, if assessments have been made, upon the property assessed for such improvement.

If in jury trials there are more than one appellant, and with separate claims and issues as to different properties, the court may in its discretion submit all the several claims and issues to the same jury together, or it may direct separate trials for the separate claims and issues or any number of them. In case of such joint submission, the jury shall be approximately charged, and provided with a form to return the compensation or damage separately as to each property and appellant. Also if one appellant shall have appealed from an award as to each compensation for property taken and damages to property caused by the improvement the verdict of the jury shall separately state its findings as to each issue in controversy. In finding its verdict for compensation for property taken, or for damages to a property by an improvement, the jury shall not consider, or deduct, the value of any benefit that it will receive from the construction of such improvement.

If the appeal be upon both court issues and jury issues as in this act defined, the court shall appropriately separate the same for hearing and trial, and render its order or decree upon the court issues, and its judgment upon the verdict of the jury".

Strike out all of section 41 and insert in lieu thereof the following:

"Section 41. In addition to the right of appeal in the preceding sections of this act provided for, error may be prosecuted to the court of appeals from a final order of a judgment rendered by a court of

common pleas upon either proceeding in the matter of a petition originally filed therein, or heard or tried therein on an appeal from a final order of a board of county commissioners. Proceedings in error hereunder and the costs thereof shall be governed by the provisions of law now or hereafter in force in civil cases.

If the plaintiff or plaintiffs in error be not a board of county commissioners, or joint board of county commissioners, it shall be sufficient to make the board or joint board of county commissioners which originally rendered the decision complained of, or is opposed in interest, defendant in error, and such board or joint board shall be deemed to represent those opposed in interest to the plaintiff in error; and if the plaintiff or plaintiffs in error are a board or joint board of county commissioners, it shall be sufficient to make the petitioners for the improvement defendants in error. All parties to said proceeding in the court of common pleas affected by said proceeding in error shall be deemed to be parties defendant in error, and opposed to the contention of plaintiffs in error, unless by motion therefor they be admitted and joined with plaintiffs in error in interest.

In line 1350, after the word "marshes" insert the following:

"He shall also hear and determine all appeals provided in this act to be made to him under its provisions, and all other things by its provisions required; and shall annually report to the governor upon such matters as he deems to be of general public interest and as to all matters of apportionment of assessments between counties to joint improvements."

Strike out all of section 73 and insert in lieu thereof the following:

The superintendent of public works as drainage commissioner in all matters of appeal to him, provided by this act shall have the right to, and if requested in writing by any of parties in interest, shall call to his aid the state highway commissioner and the dean of the engineering department of the Ohio State University, who in such case shall with the drainage commissioner constitute an official board of appeals, and by a majority vote determine all issues to be determined upon matters appealed to the drainage commissioner under this act."

In line 1530 after the word "county", insert the following:

"All of the provisions for the issuing and sale of bonds in anticipation of assessments for benefits in case of single county improvements shall apply in like manner in case of joint county improvements; but the county commissioners of each county forming the joint board of county commissioners in the matter of determining whether to issue and sell bonds, or to make payment from the general ditch improvement fund of their respective counties shall act individually and for their own county only. For this purpose and in anticipation of the apportionment of the cost of expense of the joint improvement to the several counties, the commissioners of any county may estimate the probable apportionment to their county and base their bond issues on such estimate; and if the same be less than the apportionment finally determined upon, they may at their discretion make a supplementary bond issue to meet the deficiency, or may pay the excess of the apportionment from their general ditch improvement fund."

WHEREAS, The House and Senate have passed **H. B. No. 571** — Mr. Taylor, the purport of which bill is to cancel a certain contract for road improvement in Morgan county, Ohio, which contract was entered into by one Frank J. Bentz who gave a bond as required by law with a bonding company for his surety; and

WHEREAS, The House passed said bill with the understanding that loss resulted to the said Frank J. Bentz by reason of his being compelled to enter the service of the United States as a soldier in the late war; and

WHEREAS, Information has been given to the House, taken from the records in the auditor's office of Morgan county, Ohio, that the commissioners of said county, on the 25th day of July, 1916, found that said Bentz was failing in his contract to complete the work and made application to the state highway commissioner to take steps to bring about a completion of the work within a reasonable time because of said failure on the part of said Frank J. Bentz; and

WHEREAS, The state highway department found in favor of said application of said commissioners and on August 12, 1916, entered into a contract with the Engineering Service Company for the completion of the Bentz contract; and

WHEREAS, Information is given that the said Bentz had nothing further to do in connection with said contract or in completing the road improvement by virtue thereof after said August 12th, 1916, long before the said Bentz entered the service of the United States as a soldier in the war; and

WHEREAS, Further information is given that the State Highway Department in completing said Bentz contract and not then having in the hands of said department funds available to complete said improvement, agreed with Morgan county that if said county would advance the necessary funds to complete said work, the State Highway Depart-

ment would reimburse said county when the money should be collected from said Bentz and the sureties on his said bond; and

WHEREAS, Under said arrangement Morgan county advanced for the completion of said improvement about forty thousand dollars which has not been repaid to said county and will not be repaid to said county unless the same shall be collected upon the bond of said Frank J. Bentz; and

WHEREAS, If the information which is now brought to the attention of the House is correct, said bill was passed by the House under a misapprehension of the facts and without a proper or sufficient understanding of the correct conditions upon which said bill is predicated; and

WHEREAS, If said bill is given effect according to its terms and provisions, Morgan county will sustain a loss of approximately forty thousand dollars by release of said Bentz and the bonding company, his surety;

It is therefore moved that a committee of three members of the House be appointed by the Speaker to investigate the facts concerning the contract attempted to be canceled by said bill and the circumstances and conditions attendant upon the failure of said Bentz to fully perform said contract according to its terms and provisions and that said committee report to this House a full and detailed statement of said matters to the end that the House may take such action as a correct statement of the facts would authorize and require and that until said committee makes its report that the enrollment committee be directed not to report said bill for signing by the speaker.

**12:50 o'clock p. m.**

On motion of Mr. Beetham, the House recessed until 4 o'clock p. m.

**4:00 o'clock p. m.**

The House met pursuant to recess.

The joint committee from the two Houses consisting of Messrs. Ritter, McCoy and Jones of Meigs, on the part of the Senate and Messrs. Robins, Hopple and the Speaker of the House on the part of the House of Representatives, escorted General John J. Pershing to the Speaker's stand of the House and was introduced by Speaker Kimball.

General Pershing then addressed the members of the General Assembly in informal joint session as follows:

Your Excellency, Gentlemen of the General Assembly of Ohio, Ladies and Gentlemen:

It is a privilege and an honor to appear before this representative assembly. I am filled with gratitude at the sentiments that have been expressed in appreciation of the achievements of the American Army by the people of Ohio. It is an especial pleasure to speak through you to the citizens of this great state—a state that has given leaders to the Nation in every crisis; a state that claims the birthplace of Grant, Sherman and Sheridan, and of Presidents Hayes, Garfield, McKinley and Taft. The cordial welcome which you have extended me and my staff to-day, and the hospitable greeting accorded us since our entry into your state, I take not for myself alone but also for the young manhood I had the honor to command.

Your brothers and sons in our armies quickly reached the highest standard of our finest troops. The memory of their unflinching fortitude and heroism fills me—as it should you—with the greatest admiration. Their devotion, their valor, and their sacrifices will live forever in the

hearts of their grateful countrymen. In the gruelling inch-by-inch advance in the battle of the Meuse-Argonne; on the fields of Flanders with the Belgian Army; and in Italy in the final victorious drive, your men were in the forefront and proved themselves worthy sons of their martial ancestry.

Yet the record of your sons in battle is but one of the laurels that Ohio's men have won. Their cheerful acceptance of the rigor of military discipline, their patience in training, their fortitude in combat, were all that your fondest hope could desire. No body of men taken to war in distant lands far from home influences were ever inspired by more patriotic ideals. Their abstinence and morality gained for them the highest praise of our Allies, and brought them home to you in health.

It may be truthfully said that the impulse of armies springs from the people. The high morale that fired your men to great achievement in Europe was founded upon the loyalty and aggressiveness of the people at home. Ours was a crusade for freedom and right, which inspired our men with an unselfish and righteous devotion to the Cause.

It is a duty and a pleasure for me to bear witness to this cornerstone of our success.

Ohio was especially fortunate in her war governor, and in the men who led in her councils. Their unceasing toil gave direction and impetus to the patriotic efforts of your people. In the contributions of your people to the support of their sons overseas, and to the Red Cross, Y. M. C. A., and other drives for their welfare, they did more — much more — than their allotted share.

But it is to the women of America and of your state that we should pay special homage. Bravely did they bear their share of the burden at home. They watched and prayed that their sons might bring back the victory. In hospitals we found the tender care of our women; in the canteens and billets; the recreation centers, and wherever women were most needed, there they labored with a devotion that filled us with pride.

Our people hope for some wise adjustment of international affairs that will reduce the probability of war. Yet all must recognize that we have only begun our work. With the achievement of victory, the spirit of co-operation for a single cause has temporarily ceased to inspire us. There is unrest and disaffection among certain elements of our country. Largely through their ignorance of the value of our institutions, certain of their numbers are endeavoring to incite class antagonism. Let us not forget the great lessons of the war which has taught cordial understanding and co-operation for the greatest good of all. All patriotic men and women should continue actively to stand against these forces of evil. Anarchy and Bolshevism cannot live in this free country, if the patriotic people stand as firmly now as they did during the war.

You will not find among the ranks of the revolution any who wore the uniform. Among our soldiers you will not find those who wave the red flag of anarchy. They have returned to you better men morally and physically. They are able and eager to take their full share in the duties of good citizenship. I am as confident that they will become leaders in the fight for good government and for the safety of our institutions as I was confident that they would carry forward our lines when ordered into battle.

Another lesson of the war is that universal military training is only the course of wisdom. In addition to the preparation of our young manhood to serve their country, military training would bring other

important benefits which our Government should hasten to provide. It would develop the physical vigor and manliness and sharpen the mentality of our boys. It would teach self-discipline and respect for constituted authority. It would encourage initiative and give young men self-confidence. It would increase patriotism and prepare young men for the duties of citizenship. All of this has been proved by our experience during the war. Such training is especially needed among our alien population. If they were taught our language and were made familiar with the spirit of our institutions we would have less lawlessness and fewer I. W. W's.

In closing, I wish again to pay tribute to the patriotism of the great State of Ohio and to thank you for myself and my staff for our very cordial reception to-day.

The House then passed to the fourth order of business, being second reading of bills.

The following bills were read the second time by their titles and were referred as follows:

**S. B. No. 211** — Mr. O'Brien

To the committee on Cities.

**S. B. No. 193** — Mr. Agnew.

To the committee on Insurance.

**Am. S. B. No. 206** — Mr. Hopley

To the committee on Privileges and Elections.

**S. B. No. 203** — Mr. Liggitt.

To the committee on Military Affairs.

The following communication was received from the governor:

December 31, 1919.

To the General Assembly:

I respectfully return **House Bill No. 405** with my disapproval.

There has been much said for and against this measure, and I have sought to make an earnest investigation of the facts that bear on the suggested change in the statute. It is proposed to hold a larger part of Sandusky Bay free from net fishing, the claim being that there is too much interference with the spawning beds. It develops that four-fifths of the fish taken from the area in question are carp. If this kind of fish is permitted to propagate more than it has in the past, it is fair to assume that a real, instead of a fancied menace to the spawning beds will be created.

The fish and game department of the state advises that not more than five per cent of the spawning area is invaded by nets under present

conditions. This can hardly be accepted as a danger to the fishing industry. The objective after all, is conservation of the food supply and I am unable to see that the bill which you propose would be helpful.

JAMES M. COX,  
Governor.

On motion of Mr. Federman further consideration of the message of the governor was deferred.

The following communication was received from the governor:

December 31, 1919.

To the General Assembly:

**House Bill No. 558** "to make sundry appropriations," with the following exceptions, is filed herewith in the office of the secretary of state with my approval.

#### EXCEPTIONS.

H. E. Culbertson Company, Cleveland, Ohio, in full settlement of claim for losses sustained in building twenty-four miles of highway in Muskingum and Licking counties.....\$50,000.00.

The Sundries Claims Board allowed seven thousand dollars. This bill carries \$50,000.00. This creates a great discrepancy which naturally occasions some doubt as to the propriety of the payment. It would be my suggestion that the General Assembly by formal action which the constitution authorizes give its consent to a suit to be filed against it by Mr. Culbertson, under which arrangement the fullest opportunity would be given for a hearing, and at the same time both the interests of the state and the claimant would be safeguarded.

The Ohio Electric Ry. Co., Springfield, in full payment for transportation of the Finance Committee of the House of Representatives of the 82nd General Assembly from Columbus to Lima, Van Wert and return.....\$85.80.

There is nothing of record to base this claim on.

Alfred Robinson, sergeant-at-arms, 83rd General Assembly, in full payment for all additional services rendered.....\$400.00.

William C. Ries, sergeant-at-arms, 82nd General Assembly, in full payment for all additional services rendered.....\$400.00.

The practice of extra compensation for attaches of the legislative halls ought to be discouraged. I can see no warrant for these items.

Albert E. Schendal, Cleveland, in full settlement for injuries received while serving in the Ohio National Guard, caused by explosion while being instructed in the use of high explosives.....\$1,000.00

Mr. Schendal received payment through action of a previous assembly, and the understanding then was that the claim was fully satisfied.

Quaker Oats Company, Akron, tax refunder.....\$5,834.76.

This item was disapproved both by the Attorney General and the Sundries Claims Board. If the legal authority of the state renders an adverse finding, it seems to me that that should be final insofar as the state's policy is concerned.

Clinton Cowan, Columbus, Ohio, refund of expenses incurred in defending title to the office of State Highway Commissioner.....\$748.68.

It would be a very dangerous precedent to compensate public

officers for legal expenses incurred under the circumstances in the present instance.

In full settlement of claims for salary due certain employes of the House of Representatives—81st General Assembly: Alfred Robinson, \$55.00; J. D. Thomas, \$55.00; Clyde L. Sherman, \$55.00; E. H. Gilkey, \$55.00; James B. Lewis, \$55.00; Charles E. Harper, \$30.00; Calvin W. Reynolds, \$30.00; C. E. Spring, \$30.00; E. M. Kill, \$30.00; R. R. Zuremehly, \$30.00; Joseph Thorpe, \$55.00; J. C. Griggs, \$30.00; Marie K. Neary, \$25.00; Janette Cone, \$25.00; Scott Schertzer, \$38.50; S. R. Robinson, \$38.50; John Guy, \$38.50; Benjamin Lyons, \$38.50; Jacob Shook, \$38.50; Paul Theobald, \$21.00; David White, \$21.00; John Crown, \$21.00; J. E. Allen, \$21.00; Richard Armstrong, \$21.00; Evart Sivits, \$21.00; Sherman Weaver, \$3.50; E. W. Hughes, \$150.00; Fred Blankner, \$150.00; Ella Scriven, \$150.00; William Todd, \$60.00; Walter Roberts, \$24.50.

Eighty-third General Assembly:

Howard Cutright, \$163.00; A. D. Terhune, \$153.00; L. Emslie, \$98.00; Robert F. Smith, \$81.00; Howard Smith, \$150.00; Frank E. Bell, \$300.00; Clare Spring, \$300.00.

Some of these very claims have been disapproved by a previous executive. The payment of any of them would be simply another encouragement to the tendency toward extra compensation to those attached to the legislature.

C. J. Murdock, Columbus, in full settlement of claim for additional compensation for services rendered as acting chief deputy of the boiler inspection division of the Industrial Commission.....\$730.35.

Mr. Murdock was acting chief deputy of the department in question and beyond doubt rendered the service with a full understanding as to what his compensation would be.

John G. Edwards, Cincinnati, in full settlement for services rendered as deputy inspector of workshops and factories.....\$500.00.

Compensation in this instance is claimed during a period when Mr. Edwards remained in the state's employ after his dismissal. The court sustained the administrative action taken and I can see no base for any claim against the state now.

American Sewer Pipe Company, Barberton.....\$145.31.

Babcock-Wilcox Company, Barberton.....\$2,323.30.

The department of Public Works does not approve of this payment. I am inclined to that view myself for the reason that the work was done without its being authorized.

Adjutant General.

F-9—For encasing flags of Ohio regiment used in the world's war.....\$2,000.00.

The Adjutant General advises that this amount cannot be used because it is insufficient. A special bill has been presented for the same purpose.

Moving athletic field.....\$3,000.00

The secretary of the board of trustees of the Ohio State University advises that he knows nothing about this matter.

Joseph W. O'Neal in full settlement for services rendered as custodian of the Senate during week beginning September 7th, 1919..\$50.00

Payment has already ensued.

... Robert Smith, Columbus, hospital and doctor bill.....\$115.00.

It has never been the practice of the state to supply medical or hospital service for an employe during sickness.

Lawrence K. Langdon in full settlement of claim for salary....  
.....\$2,470.83.

I regret the necessity of disapproval of this item because of the excellent service rendered by Mr. Langdon. Mr. Langdon was a member of the Public Utilities Commission and was appointed two days before the Legislature changed the compensation from six thousand dollars, the existing salary, to forty-five hundred dollars a year. There seems no doubt, however, but what Mr. Langdon accepted the place with full knowledge of what the pay was to be. The fact that no claim was made during his tenure would seem to be plain confirmation of that theory. If the state were to pay this claim, others of like nature would follow.

State Treasurer.

G-31 — Capital equipment.....\$100,000.00.

Provision for this was made in a separate bill which has passed both houses.

JAMES M. COX,  
Governor.

On motion of Mr. Federman, further consideration of said communication was deferred.

5:25 o'clock p. m.

On motion of Mr. Federman, the House adjourned until 1:30 o'clock p. m. tomorrow.

SECTION 1. That for the purpose of safeguarding the will of the electors of Ohio as expressed in legal enactments by and through their representatives to the General Assembly, there shall be submitted to the electors of this state in the manner provided by law, on the second Tuesday in August, 1920, a proposal to amend the constitution of the state of Ohio by amending article two, section 1-C thereof, so that it will read as follows:

"Sec. 1c. The second aforestated power reserved by the people is designated the referendum, and the signatures of \* \* \* *ten* percentum of the electors shall be required upon a petition to order a submission to the electors of the state for their approval or rejection of any law, section of any law or any item in any law appropriating money passed by the General Assembly. When a petition signed by \* \* \* *ten* percentum of the electors of the state and verified as herein provided, shall have been filed with the secretary of state within ninety days after any law shall have been filed by the governor in the office of the secretary of state, ordering that such law, section of such law or any item in such law appropriating money be submitted to the electors of the state for their approval or rejection, the secretary of state shall submit to the electors of the state for their approval or rejection such law, section or item, in the manner herein provided, at the next succeeding regular or general election in any year occurring subsequent to sixty days after the filing of such petition, and no such law, section or item shall go into effect until and unless approved by a majority of those voting upon the same. Mr. Denune offered the following resolution:

**H. J. R. No. 95** — Mr. Denune.

Memorializing congress to provide an appropriation of \$500,000,-000.00 for the promotion of home building.

WHEREAS, It was necessary during the war period to use the materials and labor employed in home building for war purposes and home building was declared a non-essential industry for that period, saw mills and lumber manufacturing plants were commandeered and the price of lumber fixed by the government; and

WHEREAS, Home building is still being curtailed to an alarming degree because of the enormous prices now being asked for materials, such prices being far in excess of those fixed by the government during the war period for the same materials; and

WHEREAS, This suspension of home building has resulted in a great scarcity of houses, causing thousands of families to pay exorbitant rents and to live in undesirable quarters such as barns, sheds, tents, and other unfit places, and the resulting congestion and over-crowding are dangerous from the standpoint of public health; and

WHEREAS, The man of ordinary means and moderate salary cannot build himself a home at the present prices of materials and his family is therefore often forced to live under undesirable and demoralizing conditions; and

WHEREAS, A nation of home owners is a nation of patriotic citizens, for "No man ever went to war for a boarding house," and it is an obligation of government to provide the necessary machinery to promote and safeguard the public welfare; therefore,

*Be it resolved by the General Assembly of the State of Ohio, That* congress is hereby requested to provide by law for the creation of a bank or other institution similar to the Federal Farm Loan Bank, where citizens may borrow money at a low rate of interest and for long terms for the purpose of building homes, and that an appropriation of at least five hundred million dollars be made to put such plan in operation.

*Be it further resolved,* That a copy of this resolution be forwarded by the clerk of the House to the President of the Senate, the Speaker of the House of Representatives and to each member of congress from Ohio.

The resolution was laid over under the rule.

Mr. Lonz offered the following resolution:

**H. J. R. No. 96** — Mr. Lonz.

Requesting congress to modify the provisions of the Seamen's Act relative to traffic on the Great Lakes.

WHEREAS, The Seamen's Act of March, 1915, was passed primarily to improve the conditions of seamen and for the protection of passengers on the high seas; and

WHEREAS, Such act applies also to boats on the Great Lakes which do a purely coastwise business, where conditions are entirely different and passengers are amply protected; and

WHEREAS, The instructions of the act as applied to local lake traffic cause great hardship amounting practically to virtual destruction of all traffic during certain months of the year, with no corresponding benefits: therefore,

*Be it resolved by the General Assembly of the State of Ohio*, That congress is hereby requested to modify the Seamen's Act so that the restrictions of such act shall not apply to vessels on the Great Lakes which do a purely coastwise trade and whose routes are within three miles of the shore.

*Be it further resolved*, That copies of this resolution be forwarded by the clerk of the House to the presiding officers of both houses of congress and to each member of congress from Ohio.

By unanimous consent Mr. Silver submitted the following report:

To the General Assembly:—

Joint committee on Salaries and Compensation of State Employees (**S. J. R. No. 62**) makes the following partial report:

After a comprehensive and exhaustive survey of the salaries paid in state supported universities, colleges and normal schools, and after a study of the general situation in these institutions, your committee is of the unanimous opinion that a critical condition exists which makes imperative immediate financial relief for state supported universities, colleges and normal schools. The committee has had a number of conferences with committees composed of trustees and

heads of the various state supported universities, colleges and normal schools and other conferences with committees composed of professors, instructors and employees. Many of the best qualified professors and instructors in these institutions are resigning and accepting more remunerative positions, and there is serious danger, that unless some relief is afforded, these institutions will suffer irreparable loss in their effectiveness, and the high standard now maintained demoralized. Therefore, your committee recommends that the fees and deposits received from these institutions be paid into the state treasury as now, but credited direct to the universities, colleges and normal schools from which they come, instead of to the general revenue of the state.

This partial report is submitted at this time with a proposed bill which provide immediate partial relief. The committee urges immediate action in order that fees and tuitions may be readjusted and become effective January 30th, the date on which semi-annual fees are collected from students.

The funds accruing to the use of our state supported educational institutions from the above recommended legislation will only partially meet the sum needed and for future relief this committee will make definite recommendations in its final report.

This recommendation has the approval of the auditor of state, the joint committee composed of trustees and heads of state supported universities, colleges and normal schools and is the unanimous recommendation of this committee.

Requesting that an invitation be extended to Ex-Premier Clemenceau of the French Republic to visit the United States and become our nation's guest.

WHEREAS, Americans with practical unanimity regard with veneration and gratitude the great French Premier who, within the past week was retired to private life; and

WHEREAS, Almost a century ago Lafayette, from a similar retirement, was invited to visit the United States and become the nation's guest; and

WHEREAS, His tour through our country, fittingly declared to be "the most singular and memorable pageant in the annals of time," stimulated patriotism, revived the sacred memories of the Revolution and united all hearts in a tribute to this knight errant of liberty; and,

WHEREAS, A similar visit from the intrepid leader and savior of the French republic and defender of liberty, at this time would stimulate Americanism, exalt the cause for which allied nations took up arms and afford our countrymen an opportunity to express their admiration and gratitude to him who led the allied hosts to victory; therefore,

*Be it resolved by the General Assembly of the State of Ohio:* That we hereby give a formal expression to the desire and hope that congress may invite to our Republic, Georges Eugene Benjamin Clemenceau, that peerless statesman and uncompromising patriot whose voice rang like a clarion above the cataclysm of the World War and would not be hushed by the onslaughts of the enemy or the bullet of the assassin until victory crowned the Allied hosts and France, saved and glorified overwhelmed bolshevism at the ballot box; be it further

*Resolved,* That we request our secretary of state to forward to our senators and representatives in congress copies of this resolution with the request that they use their influence to have a resolution adopted embodying the invitation herein suggested.

The resolution was laid over under the rule.

Mr. Beaty offered the following resolution:

Relative to the replacement of the Lincoln monument in the city of Washington.

*Be it resolved by the General Assembly of the State of Ohio:*

WHEREAS, In 1866 and 1867, immediately after the martyrdom of Lincoln steps were taken in the city of Washington to erect a monument to Abraham Lincoln in front of the city hall there, and the movement was made successful by small contributions of the people who knew personally and loved the mighty Lincoln; and

WHEREAS, Said monument was the first one in memory of Lincoln, modest and plain, like himself, entirely best representing that great man ever yet erect — surmounted as it was by a life size statue of him, as like as life; and

WHEREAS, Said monument was dedicated in 1868 in the midst of the largest and most august assemblage of our mightiest Americans, most of whom personally knew Lincoln well, and with them, also, were thousands of Union soldiers who had gone to battle at Lincoln's call; and

WHEREAS, Notably, Andrew Johnson, president, unveiled the statue, and made a memorable speech dedicating the monument and consecrating forever the sacred spot on which it has stood half a century; and

WHEREAS, Vandal hands have dared to desecrate, pull down, wreck and destroy that monument, and hidden it away from human view, to the shame and disgrace of the whole American nation; now, therefore, be it

*Resolved*, That without qualification the representatives and senators of the Eighty-third General Assembly of Ohio unanimously condemn this unpatriotic and unprecedented vandalism and demand that the venerated monument be replaced on the same consecrated spot where it was erected half a century ago.

*Resolved further*, That a copy of this resolution be transmitted to the president of the United States and to our two senators and our representatives in congress with the urgent and respectful request that they use the power and authority of their great offices to repair this wrong and restore the venerated shaft to its former place in its entirety, as when dedicated in 1868.

Proposing to amend the constitution of the state of Ohio by adopting a new section to be designated as section 13 of Article VIII thereof, relating to the creation of bonded indebtedness.

*Be it resolved by the General Assembly of the State of Ohio, three-fifths of the members elected to each house concurring therein, That there shall be submitted to the electors of the state for their approval or rejection, in the manner provided by law, at the general election to be held on the Tuesday after the first Monday in November, nineteen hundred and twenty, a proposal to amend the constitution of the state of Ohio by adopting the following section, to be designated as section 13 of Article VIII thereof, and the schedule thereto appended:*

## ARTICLE VIII.

Section 13. The net bonded indebtedness of any subdivision of this state shall never exceed the limitations fixed by this section. Such net bonded indebtedness shall be the difference between the principal of bonds issued by the subdivision, with the exceptions mentioned herein, and the amount held in sinking funds and applicable to the retirement thereof. The limitations shall be the following percentages, to be computed in each case upon the assessed value of the taxable real property in the subdivision, exclusive of separately assessed mines, minerals and mineral rights; counties, two per centum; townships, one and one-half per centum; school districts, three per centum; municipal corporations, four and one-half per centum; other districts, including special taxing districts, one per centum.

The following bonds and sinking fund balances applicable thereto shall not be considered in ascertaining net indebtedness; those issued in anticipation of the levy or collection of special assessments, to the extent of the anticipated assessments against private property; those issued to acquire, construct or improve property from the use of which revenue is or is to be derived, in the proportion that the surplus revenue applied to interest and sinking fund during the preceding fiscal year, or, in case of original acquisition or construction, the surplus of anticipated annual revenue pledged to be so applied, bears to the interest and sinking fund requirements of such bonds; and emergency bonds issued for the replacement or restoration of property destroyed or injured by unforeseen casualty, or for defraying the expenses of an epidemic of disease, and all amounts held in sinking funds for their retirement, in cases in which the general assembly may, by general laws, authorize the exclusion of such emergency bonds from consideration under this section; but the amount of such emergency bonds which may be so excluded from consideration shall not exceed in any case twenty-five per centum of the net bonded indebtedness of the subdivision at the time of the occurrence of the emergency and such excluded emergency bonds shall not run for more than eight years from their issuance.

No bonds issued for property or improvements shall run for a longer time than the probable period of usefulness of such property or improvements, and in no case longer than forty years from their issuance. Bonds for other purposes shall not run for more than eight years from their issuance.

All bonds hereafter issued beyond the limitations of this section shall be void. The general assembly may impose additional limitations upon the creation of public indebtedness, whether bonded or not.

## SCHEDULE.

If the foregoing amendment shall be approved by the electors it shall take effect as a part of the constitution on the first day of January, nineteen hundred twenty-one. All bonds then outstanding, and all amounts then held in sinking funds for their retirement, excepting the first two classes of excluded bonds and sinking fund balances mentioned therein, shall be considered in applying the limitations thereof; but if valid when issued such bonds shall not be impaired or otherwise affected thereby.

If, on the first day of January, nineteen hundred twenty-one, the net bonded indebtedness of any subdivision shall exceed the amount

of such indebtedness which such subdivision may have under the limitations prescribed by the foregoing amendment, then and in that event the limitation for such subdivision shall be the amount of its net bonded indebtedness, ascertained as provided in said amendment, as of the first day of the fiscal year of the subdivision in which the limitation is applied, plus fifty per centum of the amount added to the sinking fund and applicable to the retirement of the bonds considered in ascertaining the limitation, during the next previous fiscal year; and such limitation shall continue to be applied to the net bonded indebtedness of such subdivision in the manner prescribed by such amendment until the net bonded indebtedness thereof becomes reduced to the amount of such indebtedness permitted by the strict application of the limitations of the foregoing amendment to such subdivision. For the purpose of increasing the sinking fund on account of such bonds, the taxing authorities of such subdivision may levy taxes upon the taxable property therein in any year within the period in which the temporary limitation provided for in this schedule shall apply, in addition to such taxes as would be required to pay the interest and provide strictly for the sinking fund on account of such bonds; the rate of such levy shall not exceed one mill, but such levy shall not be subject to any statutory limitation on tax rates, nor be considered in applying any such limitation.

Such committee shall have full power to summon witnesses, and compel their attendance, to administer oaths relative to their testimony, to compel the production of whatever books, records, documents and papers as may be necessary for complete investigation of the subject matter.

By unanimous consent the following partial report was submitted:

To the House of Representatives of the General Assembly of the State of Ohio:

Your Joint Legislative Committee on Salaries and Compensation of State Employees (S. J. R. No. 62) beg to submit the following third partial report:

The committee have invited the heads of the various state departments to submit in writing, on blanks furnished for the purpose, the names of all employes in their respective departments, together with certain other information in regard to each such employe, including the position held, the length of time of service at such position, the salary received, the number of dependents of each, whether full or part time is served, and recommendations as to increase or decrease in salary, together with special reasons for same, if any. Such information has been furnished this committee in regard to each department. The heads and secretaries of many of the departments and institutions have appeared before the committee and given such information as was desired by the committee. In addition to all of this, many employes of the various departments, individually, and in committees, appeared and presented their own matters for the information and consideration of the committee. Likewise, numerous communications have been received from both heads of departments and employes and their committees, their contents considered, and the communications conveniently filed for reference.

#### LOW SALARIES.

The information gleaned from these various sources conclusively convinces all the members of this committee that a very high percentum of those in the service of the state is underpaid, and many of the employes in the lower positions do not receive salary enough to enable them to live in a comfortable manner in the circle in which they belong and according to American standards of living, much less to lay by any substance against inevitable sickness, old age and decrepitude, while in many of the higher positions the salaries paid are so far below what may be commanded in the outside world by men and women capable of rendering satisfactory service, that there is great danger of many of the best public servants quitting their posts and going into more remunerative fields. Especially is this true in our educational institutions. Compar-

atively few serious losses have as yet occurred here, but there is beginning to be a falling away, and the only inducements in many instances that have kept the present good and capable force are pride in the work and a fine sense of patriotism and a belief that ultimately they will be fairly and justly dealt with. It is now high time for the state, through the legislative bodies, to take active steps to so deal with these employes. Lack of revenue, of course, is the immediate barrier. In order to assist in this constructive work this committee have given much time and attention to the question of ways and means, endeavoring to discover how additional funds may be raised, without imposing an undue burden on any citizen of this state, and without bearing down more heavily on the grand tax duplicate.

On this point the following suggestions are offered:

#### PROPOSED REVENUE MEASURES.

(1) That appropriate legislation be enacted to make the Workmen's Compensation Department of the Industrial Commission self-sustaining and the expense of the maintenance thereof thereby relieved as to the general revenue fund. Over \$300,000.00 annually is now paid by general taxation to maintain this department. We believe that the general revenue funds should be relieved of this burden.

(2) That the license for wholesale and retail dealers in cigarettes be materially increased.

(3) That the fee for notarial commissions be increased.

(4) That a reasonable fee be charged for the issuance of commissions to railway police officers. (S. B. No. 27, Mr. Davis).

(5) That the fees of the Pharmacy Department be increased in certain particulars.

(6) That the present tense situation relative to personal service item of the universities, colleges and normal schools be relieved by the passage of the bill giving to them the fees and deposits, and with an indorsement of this proposition, the trustees of these educational institutions have agreed with this committee, to substantially increase entrance and other fees.

(7) That the fees for examination of stationary engineers and for boiler inspection be increased.

(8) That common carriers transporting by motor be charged a reasonable tax.

(9) That admission fees to theaters, moving picture shows and other amusements be taxed at the same rate as by the National Government.

(10) That mineral production within this state be taxed, in pursuance of authority given in the amendment to the Ohio Constitution made in 1912.

These matters may be speedily worked out, but the extremely short time available to this committee at this time has rendered it impossible to have every suggestion above made put into concrete form for presentation now. However, the passage of Senate Bill No.

27 — Mr. Davis, providing a fee of \$5.00 for each commission issued to railroad police, and Senate Bill No. 220 — Mr. Whittemore, providing relief as to the Workmen's Compensation Department of the Industrial Commission, is urged. In addition to this, it is urged that the following bills be enacted into law substantially as submitted:

## LEGISLATION SUGGESTED.

1. A bill to provide a tax on admission fees to theaters, moving picture shows and other amusements at the same rate as by the National Government.
2. A bill to provide for a production tax upon the value of coal, oil, gas or other minerals, mined or produced within this state.
3. A bill to amend sections 5894 and 5901 of the General Code, relative to taxation of cigarette dealers.
4. A bill to amend sections 5415, 5475, 5476, 5481 and 5483 and to add supplemental section 5416-1 of the General Code, relative to defining public utilities for purposes of taxation.
5. A bill to increase certain pharmaceutical fees.
6. A bill to amend section 137 of the General Code, relative to fee for notary public commission.
7. A bill to amend sections 9150 and 9151 of the General Code, relating to fees for issuing commissions, and certified copies thereof, to railroad policemen.

## SALARY RECOMMENDATIONS.

However, in view of the abnormal prices now obtaining, it is imperative in the judgment of this committee that some relief be immediately extended those receiving the smaller salaries, and accordingly, it is hereby unanimously recommended that in addition to the salaries now being paid to the incumbents of positions in the classes hereinbelow mentioned and designated, additional pay be granted from January 1, 1920, to June 30, 1921, as follows:

In all cases where salaries are not specifically fixed by General Statute, the following schedule of raises shall apply to the incumbents of all regular state positions, in all departments, commissions and institutions of the state, provided such incumbent is not an inmate of any state institution and is not furnished full board and lodging by the state, and further provided that such incumbent is not employed in, or in connection with, any normal school, college or university maintained out of state funds, to-wit:

Those receiving an annual salary of less than \$2,400.00 shall have such salary increased in the sum of \$20.00 per month, the same to be paid at the same time and in the same pro rata as the regular salary shall be paid; excepting messenger boys receiving less than \$750.00 per annum, to whom is recommended an increase of \$10.00 per month. Provided, however, that no increase hereby recommended shall increase the salary of any employe beyond a total of \$2,400.00 per year.

In all cases where salaries are not specifically fixed by General Statute, the following schedule of raises shall apply to the incumbents

of all regular state positions in all departments, commissions and institutions of the state, provided such incumbent is not an inmate of any state institution and is furnished full board and lodging by the state, and further provided that such incumbent is not employed in, or in connection with, any normal school, college or university maintained out of state funds, to-wit:

All those within the foregoing class shall receive an increase in the sum of \$10.00 per month, the same to be paid at the same time and in the same pro rata as the regular salary shall be paid. Provided, however, that no increase hereby recommended shall increase the salary of an employe beyond a total of \$2,400.00 per year.

All of the foregoing increases shall be computed on the basis of the salary paid to the incumbent of the respective positions, or similar positions in the same department, on June 30, 1917, but in no event shall it be construed as reducing the present salary of any employe.

All the proposed increases shall relate back to and cover the period from January 1, 1920, to June 30, 1921, and shall be paid to the employes who were incumbents of said positions from January 1, 1920, or who may from time to time be incumbents of such positions. It is to be understood that the additional compensation recommended herein by this committee expires by limitation June 30, 1921.

The committee desires to call attention to the fact that the above proposed schedule of raises for those employes not receiving full board and lodging from the state is the same in amount as that provided for the employes of the United States government for the fiscal year ending June 30, 1920.

It is recommended that all funds appropriated in pursuance of the foregoing suggestions shall be disbursed under the control and direction of the Board of Control, who shall be authorized, empowered and directed to cause the same to be disbursed in accordance with the foregoing proposals.

It is further recommended that section 9 of an act entitled "An act to make general appropriations," page 733 of Ohio Laws 108, Part 1, found on page 915 of said volume, be so amended as to provide that the incumbent of any state position shall not be prevented from receiving the salary that has been appropriated for such position, by reason of any classification or reclassification of his position by the civil service commission.

#### ADDITIONAL EXPENDITURES REQUIRED.

From the best available information it appears that the above outlined program will require *additional annual* expenditures, as follows:

Figured on a very liberal basis, the state institutions, commissions and departments, exclusive of the normal schools, colleges and universities, would require .....\$728,400.00

Relief having heretofore been given to the state colleges and universities, with the exception of those situated at Kent and Bowling Green, it is recommended that the Kent State Normal College be given an additional annual allowance

for personal service of .....20,000.00

And that the Bowling Green State Normal College be given an additional annual allowance for personal service of .....	15,000.00
To establish a department for the training of teachers for sub-normal and delinquent children .....	10,000.00
Total .....	\$773,400.00

The first of the foregoing figures is made up as follows:

1,561 employees @ \$240.00 —	\$374,640.00
2,948 employees @ 120.00 —	353,760.00
	<hr/>
	\$728,400.00

The first is a liberal figure, those positions in regard to which there is any doubt having been included, and no deduction having been made for the various positions which shall not of necessity be increased by the full amount, either by reason of an increased appropriation having been allowed in the present Budget over that for the year ending June 30, 1917, or where salaries now approach to the \$2,400.00 limit by less than the proposed increase.

Inasmuch as all salaries and overhead expenses of the State Highway department are paid from the State Highway funds, it is earnestly recommended that sufficient additional appropriations be made from that fund, to be applied to salaries and overhead, to make such salaries in a measure commensurate with the value of the work necessary to be done by the employees of that department.

Likewise, inasmuch as the office force of the Bureau of Inspection and Supervision of Public Offices and the Fish and Game Division of the Board of Agriculture are paid and maintained respectively out of special funds whose balances can never go into the general funds of the state, and the information to this committee being that ample balances are now in such funds, it is recommended to the Joint Finance committee and to the General Assembly that reasonable increases be there granted to be paid out of their respective funds.

This committee heretofore recommended for passage the Jones bills which also provide for all salaries, salary increases and overhead expenses for the Public Utilities Commission, which will further decrease the above proposed expenditures out of general funds.

It is also true, that in other departments, special funds which by law can be used for no other purpose, are used for the payment of salaries and maintenance, and any legislation carrying into effect the above recommendations should provide that such increases as may be provided in such departments shall be paid, so far as possible, out of the respective funds of such departments.

Incidentally it may be said at this point, that in some of the departments the present incumbents are not receiving the maximum appropriated in the current Budget, and that if this money were properly distributed to those employes, that that item would also further materially reduce the above totals.

The legislation heretofore introduced, together with that above recommended, provides in a measure for the immediate needs of the state normal schools, colleges and universities, but this committee recommends

to the General Assembly and its Finance committees that the matter of granting further relief for these educational institutions for personal service be given prompt attention.

Our attention has been forcibly called to the condition of our Boys' Industrial School at Lancaster and Girls' Industrial School at Delaware. We are thoroughly convinced that the state should spend more money for the education of the youth in these schools, and most especially should it take steps to properly prepare teachers for the work of teaching sub-normal and delinquent children, and also to provide for the services of such teachers in these schools. A careful survey of these schools should be made; and their supervisors should be experts in the best methods of teaching the peculiar types of children committed to their care. The more training we can give the unfortunates of these schools, the more valuable will they be to the state and the less will be their menace. Hence, your committee recommend that a sufficient wage be provided to be paid in order that competent teachers and supervisors may be secured for this purpose, and further, that these schools should be placed under the supervision and direction of the State Department of Public Instruction.

In order to carry out the recommendation for the training of teachers as above suggested, we recommend that an appropriation of \$10,000.00 be made to establish a department in one of the state normal schools, where special training may be given for teachers of sub-normal and delinquent children; and to complete this proposal, we further recommend that Dr. H. H. Goddard, Director of Juvenile Research, Dr. Alston Ellis, President of Ohio University, Dr. R. M. Hughes, President of Miami University, Dr. H. B. Williams, Superintendent of Bowling Green State Normal School, and Dr. J. E. McGilvrey, Superintendent of Kent State Normal School, constitute a committee to select one of these four schools in which this training shall be inaugurated.

It is here recommended that House Bill No. 603, Mr. Barnes, be enacted into law in order to provide relief for the assistant examiners in the Bureau of Inspection and Supervision of Public Offices. In many instances the salaries fixed by statute are not sufficient, and the sections providing for such salaries should be promptly amended. No list of these sections is here attempted to be given, but this committee shall be glad to furnish such information in regard to this matter as may be desired.

To meet these recommendations for additional expenditures per annum, the major revenue measures hereinabove proposed, it is estimated, will bring into the state treasury an *additional annual revenue* of not less than the following sums, to-wit:

Tax on admission fees to amusements.....	\$3,000,000.00
Tax on mineral production.....	1,500,000.00
Tax on cigarettes.....	800,000.00
Relief in workmen's compensation fund.....	300,000.00
Tax on motor transportation.....	400,000.00
Pharmaceutical fees .....	200,000.00
Notarial fees .....	12,000.00
Railroad police commissions.....	6,000.00
Total.....	<u>\$6,218,000.00</u>

No trustworthy estimate of the additional revenue to be secured by an increase of fees for examination of stationary engineers and for boiler inspection has been submitted, and for that reason none is above included.

## CONCLUSION.

Inasmuch as added revenue must be had in order that any increase shall be granted, your Committee have deemed it advisable to stop at this point and await the probable outcome of their proposed program for the raising of revenue, for it is clear that if no additional revenue shall be provided that none of the above proposed increases can be granted, much less could further increases, except in a few instances from the funds of the department itself, be granted to the incumbents of higher salaried positions.

In the event that the revenue-producing recommendations herein contained, or a major portion of them, are acted upon favorably by the General Assembly, then this committee would suggest that its members be called into consultation with the Joint Finance Committee on such adjustments as pertain to salaries amounting to \$2,400.00 per annum or more.

Your committee wish it clearly understood that they desire in no way to interfere with any of the work of the Finance committees of the Senate and the House in the work that they have done or shall do, or with the appropriations they have recommended or shall recommend, beyond their favorable impressions of the recommendations herein contained; nor with the State Civil Service Commission in any of its work of classifying or re-classifying any positions in the state institutions, commissions and departments, but that this recommended raise in salary is only temporary and is made for the purpose of meeting the immediate needs of employees who are receiving extremely low salaries. This committee have asked the Civil Service Commission to revise its schedules so as to afford to state employees permanent relief and to provide a merit system.

The committee desire to submit further recommendations, but as the nature of these must of necessity depend upon the enactment or non-enactment of revenue measures, it is deemed best to withhold a final report at this time.

As soon as the General Assembly has in sight available funds for a final adjustment on permanent salary increases, we commend to the use of the committee in charge the splendid array of data and facts now in the files of this committee.

By unanimous consent the joint committee on investigation of "Force Account" contract for the completion of section "H"- "I", I. C. H. No. 1, Guernsey county, Ohio, as provided under **H. J. R. No. 92**, made the following report:

Your joint committee after a careful investigation of the records on file in the office of the State Highway Department, submits the following report:

Your joint committee finds, that bids were received by the State Highway Commissioner on August 4, 1914, for the construction, with brick paving on a standstone base, of what is known as, Sections "H" - "I" of the National Road, located in Guernsey county, Ohio, more particularly described as contracts Nos. 501 and 502.

The plans and specifications therefor provided for a finished roadway 15 feet in width and 13 miles in length, and including grading, drainage structures, ditches and bermes, the engineers estimated cost of completion being \$336,000.00.

On October 25, 1914, the contract for the construction of the above described roadway was awarded to Ayres & Kappes of Zanesville, Ohio, at their bid of \$331,000.00, and contract duly executed.

Records on file in the office of the State Highway Commissioner discloses that the first year the contractors, under constantly rising prices and adverse labor and weather conditions, completed 7 miles of their contract, for which they were paid by the state \$159,950.52.

War conditions in Europe had begun to directly affect labor and industry in this country, materials had become scarce, labor impossible to obtain, and the situation so acute that many enterprises requiring common labor either were compelled to shut down entirely or were seriously handicapped.

Your committee does not feel that these contractors were therefore entirely responsible for the apparent slow progress of their work, and that conditions over which they had no control contributed in no small degree to the delay in the final completion of their contract.

We further find, that they made strenuous efforts to obtain materials and labor, both through the State Highway Department and private organizations, and that their accomplishments on their contract were all that could be expected under the circumstances, and that they were steadily, if not speedily, nearing final completion when their contract was forfeited by the State Highway Commissioner. This is evidenced by the fact that on the date of forfeiture, the contractors had finished 92½% of the entire roadway and had received from the State all but approximately \$30,000.00 of the total contract price of \$331,000.00, the contractors had accomplished substantial performance and had they been permitted to continue with their contract with the force on hand at the time of forfeiture, we feel reasonably sure that it would have been completed by them within a reasonable time.

On October 20, 1917, the State Highway Commissioner formally cancelled the contract of Ayres & Kappes and awarded a "force account" or cost plus contract to one Harness Renick of Williamsport, Ohio, for the completion of the roadway.

This "force account" contract provided for a 10% commission computed on the total cost expended by Harness Renick for completion. It also provided a liberal rental for equipment belonging to Harness Renick to be used on the work, and further provided for the payment of 50 cents per hour, not including drivers' wages, for approximately 20 teams used by Harness Renick on the work.

The records of the State Highway Department show, that at the time said "force account" contract was entered into with Harness Renick, the original contractors, Ayers & Kappes, had been paid \$300,000.00, and that 11½ miles of the roadway had been completed, there remaining yet to be done by the "force account" contractor 1½ miles.

Your committee finds that the "force account" contractor expended money recklessly and without regard for the simplest of business methods, and that he consumed 1 year and 28 days in constructing 1½ miles of roadway, and that he was paid by the State Highway Department \$78,753.05, adding to this amount the cost of engineering supervision charged against the job, it cost the State of Ohio through its "force account" system to construct 1½ miles of the simplest type of brick pavement, \$80,550.57.

Your committee does not deem it necessary to go into detail and set forth each and every act of mismanagement or to enumerate the manner in which funds were recklessly and carelessly expended, but consider the facts as given substantiated by the record on file in the office of the State Highway Commissioner, sufficient upon which to base its statements.

Your committee is of the opinion that after a careful consideration of the facts, that the State Highway Commissioner was not justified in the first instance in the cancellation of the contract of Ayres & Kappes, in view of the fact that pending war conditions had placed an extra burden on these contractors which should have been taken into consideration and every encouragement and opportunity extended to them to bring the work to final completion, nor is it proper at this time, to saddle on their shoulders a cost of completion which the State of Ohio, through gross negligence and inefficient expenditure of funds, has allowed to accumulate to an amount beyond reason.

Sec. 614-44. Any municipal corporation in which any public utility is established may, by ordinance, at any time within one year before the expiration of any contract entered into under the provisions of sections 3644, 3982 and 3983 of the General Code between the municipality and such public utility with respect to the rate, price, charge, toll, or rental to be made, charged, demanded, collected, or exacted, for any commodity, utility or service by such public utility, or at any other time authorized by law proceed to fix the price, rate, charge, toll or rental that such public utility may charge, demand, exact or collect therefor for an ensuing period as provided in sections 3644, 3982 and 3983 of the General Code. "SECTION I. That sections 1155-3, 1155-4, 1155-7, 1155-8, 1155-9, 1155-11, 1155-12, 1155-13, 1155-14, 1155-15 be amended and section 1155-16 be supplemented by the enactment of supplemental sections to be known as sections 1155-16a and 1155-16b of the General Code, to read as follows:

"Sec. 1155-3. The term "food", as used in this act, shall mean \* \* \* *fresh meat and fresh meat products except in process of manufacture or cure, fish, game, poultry, eggs and butter* which has been stored in a cold storage warehouse.

"Sec. 1155-4. The word "container", as used in this act, shall be taken to mean any bag, barrel, basket, bottle, box, caddy, can, canister, carton, crate, firkin, hogshead, jar, jug, keg, stopper, vessel, wrapper, frozen bulk, or any similar analogous utensil, receptacle, band or wrapper in which food may be kept, stored, sold or offered for sale.

"Sec. 1155-7. No person, firm, or corporation shall operate a cold storage warehouse without a license issued by the secretary of agriculture of Ohio. Such license shall be issued only on written application stating the location of such warehouse. Upon receipt of the application

the secretary of agriculture shall cause an examination to be made into the sanitary conditions of such warehouse. If it be found to be in a sanitary condition and properly equipped for the purpose of cold storage, the secretary of agriculture shall cause a license to be issued authorizing the applicant to operate a cold storage warehouse. No license shall be issued until the applicant therefor shall have paid to the secretary of agriculture the sum of fifty dollars. A license shall be required for each separate warehouse building within the state. *Said license shall run one year, unless sooner revoked and shall be renewed annually thereafter upon the payment of the same fee and compliance with the same conditions.*

"Sec. 1155-8. Whenever any warehouse licensed under the provisions of this act, or any portion of such warehouse, shall be deemed by the secretary of agriculture to be in an insanitary condition, it shall be the duty of the secretary of agriculture to cause such warehouse, or portion thereof, to be closed, and whenever the secretary of agriculture or his agents find that any person, firm or corporation, or any agent thereof, operating a cold storage warehouse under a license issued by the secretary of agriculture, has permitted or allowed foods to remain in cold storage longer than the time specified for such foods in section 1155-13, of the General Code, the secretary of agriculture may forthwith revoke the license of such person, firm or corporation to operate a cold storage warehouse.

"Sec. 1155-9. It shall be the duty of every person, firm or corporation that shall be licensed to operate a cold storage warehouse to keep an accurate record of the receipts and withdrawals of food therefrom. The \* \* \* secretary of agriculture shall have free access to such records at all times. It shall be the duty of each person, firm or corporation licensed to operate a cold storage warehouse to file in the office of the secretary of agriculture on or before the sixth day \* \* \* of each month a report, setting forth in itemized form the kind and quantities of food products held in cold storage in such warehouse \* \* \* on the last day of the previous month. The report shall be made on printed forms prepared and supplied by the secretary of agriculture. The secretary of agriculture may cause such other reports to be filed and at such times as \* \* \* he may deem it advisable.

"Sec. 1155-11. All food shall at the time it is deposited in any cold storage warehouse bear the date of such deposit plainly stamped thereon, *said date to be maintained on all food stuffs so stored until said food stuffs are placed on sale.* Such food shall also bear a stamp indicating the date of removal.

"Sec. 1155-12. It shall be unlawful for any person, firm or corporation, or any agent thereof, to sell or offer *for sale* or expose *with intent to sell* \* \* \* any cold storage food unless there shall be placed on each *open* container \* \* \* *containing such food* in a conspicuous place in full view of the purchaser a placard with the words "Wholesome cold storage food" printed thereon in plain, uncondensed gothic letters not less than one-half inch in length, \* \* \* when such food is sold from such container, or otherwise, at retail.

"Sec. 1155-13. No person, firm or corporation shall sell, or offer, or expose for sale, any of the following foods which have been held for a longer period of time than herein specified in a cold storage warehouse: whole carcasses of beef, or any parts thereof, six months;

whole carcasses of pork, or any parts thereof, six months; whole carcasses of sheep, or any parts thereof, six months; whole carcasses of lamb, or any parts thereof, six months; whole carcasses of veal, or any parts thereof, four months; dressed fowl, ten months; eggs, ten months; butter, nine months, and fresh fish, nine months. The keeping of any such food in cold storage by any person, firm or corporation, or agents thereof, longer than the time herein specified for such foods except such food as is stored in transit, being intended for sale outside the state, is unlawful and a public nuisance, and may be summarily abated by the secretary of agriculture or his agents forthwith seizing such food or foods. Upon the seizing of such food or foods, the secretary of agriculture shall cause the same to be inspected as required by law for other food products, and if found to be wholesome the secretary of agriculture shall cause such food or foods to be sold forthwith at such a price as he may deem reasonable under all the circumstances. As a penalty for the keeping of such food or foods in cold storage beyond the periods of time herein specified, the secretary of agriculture, after paying the necessary expenses incurred in taking possession of and selling such food or foods, shall deduct one-half of the proceeds of such sale and pay said sum into the state treasury to the credit of the general revenue fund of the state; and pay the balance of the proceeds of such sale to the owner or owners of such food or foods.

Food received by any cold storage warehousemen intended for "storage in transit" shall be reported with the monthly reports required to be furnished the secretary of agriculture, said report to show the lot numbers under which said food is stored, the date of receipt, the car numbers under which said food was received; failure to make such report with the first monthly report following the receipt of said food shall debar said food from being entitled to be regarded as being "stored in transit."

"Sec. 1155-14. After the food has been withdrawn from any cold storage warehouse for the purpose of placing it on the market for sale, it shall be unlawful for any person, firm or corporation to return such food or a portion thereof to such warehouse or any other similar warehouse. Food may be transferred from one cold storage warehouse to another; provided, that the total length of time such food shall remain in cold storage for the purpose of sale shall not exceed the time specified in section thirteen of this act; *provided, however, that the dates of deposit and withdrawal in and from other cold storage warehouses be plainly stamped on food so transferred.*

"Sec. 1155-15. No food shall be sold, or offered \* \* \* for sale, or exposed for sale, in this state, which shall have been \* \* \* stored in any cold storage warehouse outside of this state, unless it \* \* \* shall have been marked as provided for in *section eleven and fourteen* \* \* \* of this act; provided, however, that no such food shall be sold, or offered or exposed for sale, in this state, if the total length of time that such food has remained in cold storage shall exceed the time specified in section thirteen of this act.

"Sec. 1155-16a. It shall be the duty of the secretary of agriculture to cause to be made a careful inspection of all food in all cold storage warehouses, with a view to determining whether the same is wholesome. Duly authorized inspectors of the secretary of agriculture may

at any reasonable time enter any cold storage warehouse and inspect the same and the food therein.

"Sec. 1155-16b. *The secretary of agriculture may make such rules and regulations as are necessary to carry this act into effect.*

"SECTION 2. That original sections 1155-3, 1155-4, 1155-7, 1155-8, 1155-9, 1155-11, 1155-12, 1155-13 of the General Code be, and the same are hereby repealed.

Sec. 7596. If, upon such examination, the superintendent of public instruction is satisfied that any adjustments or changes in local school policy and administration should be made as a condition of participation in the reserve in the state common school fund, he may order such adjustments and changes to be made. For this purpose he shall have power to order any local board of education or any county board of education to exercise any power of whatsoever character in them vested by law, and such order shall be complied with forthwith, as a condition precedent to any participation in such reserve. If the additional levy provided for by sections 5649-4, 5649-5 and 5649-5a of the General Code has not been submitted to the electors, such order shall direct such submission for such number of years as the superintendent may deem best and for such number of mills, within the limitations imposed by said sections, as may be required in order to meet the financial needs of the district, or to exhaust its revenue resources; and if such submission is not made, or if the electors of the district do not approve the additional levy so submitted, the district shall not participate in such reserve.

Sec. 7597. After his orders have been complied with, the state superintendent of public instruction shall ascertain the probable amount required to supplement the revenues of such district in order to enable the board of education thereof to conduct the schools of the district and certify the same to the auditor of state. He shall thereafter, from time to time, within the amount so ascertained, and so long as his orders are complied with, draw his vouchers on the auditor of state for such sums as may be actually needed by such district. The auditor shall issue his warrants therefor payable out of an appropriation made by the general assembly from the reserve in the state common school fund. Any balance of such reserve remaining at the end of any fiscal year shall lapse into the state common school fund and be apportioned according to law.

"Sec. 1223. The county commissioners, in anticipation of the collection of such taxes and assessments or any part thereof, and whenever such construction, improvement or repair is being done upon their application, may, whenever in their judgment it is deemed necessary sell the bonds of said county in any amount not greater than the aggregate sum necessary to pay the respective shares of the estimated compensation, damages, cost and expense payable by the county, township or townships and the owners of the lands assessed for such improvement, but the aggregate amount of such bonds issued and outstanding at any one time and to be redeemed by a tax levy upon the grand duplicate of the county shall not be in excess of one per cent. of the tax duplicate of such county. In computing such one per cent. bonds to be redeemed by special assessments or by tax levies upon the interested township or townships shall not be taken into account. Such bonds shall state for what purpose issued and bear interest at a rate not to exceed \* \* \* six per cent. per annum, payable semi-annually, and in such amounts, and to mature in not more than ten years after their issue, as the county commissioners shall determine. Prior to the issuance of such bonds the

county commissioners shall provide for the levying of a tax upon all the taxable property of the county to cover any deficiency in the payment or collection of any special assessments or township taxes anticipated by such bonds. The proceeds of such bonds shall be used exclusively for the payment of the cost and expense of the construction, improvement or repair of the highway for which the bonds are issued. If bids are made for a portion of the proposed issue, the commissioners may accept a combination of bids, if by so doing the bonds will produce the best price to the county, and at the request of the purchaser the bonds may be issued in denominations of one hundred dollars or multiples thereof notwithstanding any provision of the resolution providing for their issue. Where such construction, improvement or repair is made upon the application of the township trustees such township trustees are hereby authorized to sell the bonds of the interested township in any amount not greater than the estimated compensation, damages, cost and expense of such construction, improvement or repair and under like conditions hereinbefore prescribed for county commissioners.

"Sec. 3298-15e. The township trustees, in anticipation of the collection of such taxes and assessments, or any part thereof, may, whenever in their judgment it is deemed necessary, sell the bonds of said township in any amount not greater than the aggregate sum necessary to pay the estimated compensation, damages, costs and expenses of such improvement. Such bonds shall state for what purpose they are issued and shall bear interest at a rate not to exceed \* \* \* *six* per cent per annum, payable semi-annually, and in such amounts and to mature at such times as the trustees shall determine, subject to the provision, however, that said bonds shall mature in not more than ten years. Prior to the issuance of such bonds the township trustees shall, in case all or any part of said bonds are to be redeemed by special assessments, provide for the levying of a tax upon all the taxable property of the township to cover any deficiencies in the payment or collection of any such special assessments. The sale of such bonds shall be advertised once not later than two weeks prior to the date fixed for such sale in a newspaper published in the county and of general circulation within such township, if there be any such paper published in the county, but if there be no such paper published in the county then in a newspaper having general circulation in said township. Such bonds shall be sold to the highest bidder for not less than par and accrued interest. The proceeds of such bonds shall be used exclusively for the payment of the compensation, damages, costs and expenses of the improvement for which they are issued.

The township trustees, in anticipation of the collection of such taxes and assessments, or any part thereof, may whenever in their judgment it is deemed necessary, sell the bonds of said road district, in any amount not greater than the aggregate sum necessary to pay the estimated compensation, damages, costs and expenses of such improvement. Such bonds shall state for what purpose they are issued and shall bear interest at a rate not to exceed \* \* \* *six* per cent, per annum, payable semi-annually and in such amounts and to mature at such times as the trustees shall determine, subject to the provision, however, that said bonds shall mature in not more than ten years. Prior to the issuance of such bonds the township trustees shall, in case all or any part of said bonds are to be redeemed

by special assessments, provide for the levying of a tax upon all the taxable property of the road district, to cover any deficiencies in the payment or collection of any such special assessments. The sale of such bonds shall be advertised once, not later than two weeks prior to the date fixed for such sale, in a newspaper published in the county and of general circulation within such district, if there be any such paper published in the county, but if there be no such paper published in the county then in a newspaper having general circulation in said district. Such bonds shall be sold to the highest bidder for not less than par and accrued interest. The proceeds of such bonds shall be used exclusively for the payment of the compensation, damages, costs and expense of the improvement for which they are issued."

Relative to the appointment of a committee to investigate the subject of state relief to the returned soldiers of the world war.

WHEREAS, The people of the state of Ohio feel that they are indebted to the returned soldiers of the recent world war for the great sacrifice they made; and

WHEREAS, The question of the financial welfare of those returned soldiers is a matter which the state of Ohio feels itself obligated to help solve; and

WHEREAS, Several of the other states of the Union have taken definite steps in the matter, by passing legislation for the relief of their returned soldiers, some in the form of bonuses to each man, others by helping to provide employment; and

WHEREAS, The manner in which such relief should be afforded in order to be of the greatest ultimate good to each returned soldier, is a question which requires investigation; therefore

*Be it resolved by the General Assembly of the State of Ohio, That a committee of three members of the Senate and three members of the House of Representatives be appointed respectively by the president of the Senate and the speaker of the House of Representatives, to examine into the question of the best method or methods that can be employed to give such relief as such committee thinks best, and that the above named committee make a report to the General Assembly, prior to sine die adjournment, of the results of its investigation.*

WHEREAS, Two cents per mile each way each week during the entire time the General Assembly is in session is an amount greater than the actual expense at three cents per mile each way for the weeks of actual attendance; and

WHEREAS, The state constitution forbids the payment of any compensation to members other than that of the fixed salary determined by law; and

WHEREAS, The difference between the actual mileage each way at three cents for each week of actual attendance and the amount that might be received at two cents per mile for the entire number of weeks of the present session would be, if paid, in the nature of compensation; therefore be it

## JOINT RULES OF THE GENERAL ASSEMBLY.

---

(Adopted January 31, 1919.)

---

Rule 1. Whenever the two branches of the General Assembly shall convene for any purpose required by the constitution or laws of the state, such convention shall be held in the hall of the House of Representatives, unless otherwise ordered by a joint resolution of the two branches, and the president of the senate shall preside. During all such conventions each branch shall be held to be in session as a separate branch of the General Assembly and be governed by its own rules; and except in voting at elections, where each member is entitled to a separate vote, shall act as such and no question shall be considered as carried otherwise than by the concurrent action of both branches; provided, that either branch may, by a vote of a majority of all its members, dissolve from such convention by withdrawing therefrom; and such convention may, by the concurrent vote of the two branches, take a recess, or adjourn to a time certain; but such recess or adjournment of the convention shall not be held to be an adjournment or recess of either branch nor to prevent either from proceeding with its usual business during such recess or adjournment of the convention.

Rule 2. In all elections in joint session, a majority of the votes cast shall be necessary to a choice.

## BILLS.

Rule 3. Bills introduced in either house shall be legibly written, typewritten, or printed, and shall bear the name of the author and must in all respects, as to form, comply with the laws, and the rules of the General Assembly.

Rule 4. Bills shall have noted in their titles a distinct reference to the subject or matter to which they relate and also, if they propose the amendment or repeal of any law, to the section proposed to be amended or repealed.

Rule 5. Bills as well as joint resolutions, shall be printed after their first reading, and distributed for the use of the members of the two houses.

Rule 6. In all bills introduced which seek to amend existing statutes any new matter contained therein shall be underscored by the author, and when printed the matter so underscored shall be printed in italics; and when amendment is sought by the omission or elimination of matter in an existing law the author shall indicate such omission or elimination by asterisks and the printer shall follow such indicated marks in copy. No bill shall be sent to the printer by the clerk which does not conform to these requirements.

Rule 7. When a bill or joint resolution has been passed or adopted in either house, notice shall be forthwith given to the other house.

Rule 8. When a bill or joint resolution which shall have been passed in one house is rejected or lost in the other, or postponed indefinitely, notice thereof shall forthwith be given to the other house.

Rule 9. When a bill or joint resolution which has passed one house, and been amended, passed and returned by the other, it shall lie over one calendar day and the amendment or amendments be printed in the journal of the House to which it was returned unless otherwise ordered, in which case the calendar shall show on what page of the journal of the other House the amendment or amendments have been printed and shall be placed on the calendar in the order received.

When taken up the question shall be upon concurrence in the amendment or amendments, and the same number of votes shall be required to concur as was required to pass the bill or resolution in the house in which it originated; and if such house refuse to concur in the amendment, notice shall be forthwith sent to the other house where the proceedings shall be in the following order:

First, to insist upon its amendment and ask for a committee of conference;

Second, to recede from its amendment, which has the effect of passing the bill in the form in which it passed the house in which it originated;

Third, to adhere to its amendment, which precludes a committee of conference.

#### COMMITTEE OF CONFERENCE.

Rule 10. All committees of conference shall consist of three on the part of the Senate and three on the part of the House of Representatives unless otherwise specially ordered by both houses.

Rule 11. Whenever any committee of conference of the two houses shall disagree, other committees may be appointed; and if either of the two houses shall disagree to any report of a committee of conference, such house shall forthwith notify the other of such disagreement, and request another committee of conference; and thereupon another committee shall be appointed.

Rule 12. A committee of conference appointed to consider matters of difference between the two houses upon any bill or resolution, may consider and include in its report any amendments pertinent to the bill or joint resolution, whether or not the form or substance of such amendments relate exclusively to the original matters of difference, or the committee may offer a substitute for said bill or resolution.

Rule 13. The report of a conference committee is always in order except during a roll call or division, and cannot be laid on the table, referred to a committee, or indefinitely postponed, and must be voted upon as a whole.

Rule 14. When committees of conference have met and shall have come to an agreement the bill and papers adhering thereto shall remain in the House in which the bill originated; if no agreement is reached then the bill shall remain in possession of the House asking for the conference committee.

#### MESSAGES.

Rule 15. All messages sent from one house to the other shall be carried by an officer or employe of said house who shall give a receipt for the same to the message clerk from whom he receives the message. He shall deliver the message without delay to the clerk of the house to which it is sent and take a receipt therefor from said clerk or one of his assistants authorized by him to receipt for messages. The receiving

clerk shall deliver such message to the presiding officer of the body, who shall, in the proper order of business, and within a reasonable time, lay it before the house.

#### ENGROSSMENT OF BILLS.

Rule 16. All bills and resolutions, before they are passed or adopted by either house, shall be carefully engrossed in plain handwriting, in printing or in typewriting, and the engrossed copy carefully compared with the original bill, and the Journal showing the amendments agreed to.

Rule 17. When a bill shall have passed one house, and shall be amended in the other, the amendments shall be engrossed upon a separate piece of paper, and the bill, as amended, shall be fully engrossed, and both returned, with the engrossed bill received from the other house, to the house in which it originated. In such engrossments, sections of bills and joint resolutions amended shall be engrossed in a plain engrossing handwriting, in printing or typewriting. Whenever a bill shall be passed in one house and sent to the other and a substitute therefor is agreed to by such house, in the communications between the houses such substitutes shall be designated and treated as an amendment to the original bill, and the message relating thereto shall definitely show as in case of other amendments, how the original bill is amended.

Rule 18. A bill or joint resolution having been reported to either house by the joint committee on Enrollment shall not thereafter be subject to amendment or commitment, or other action by either house. But this provision shall not apply to bills returned to the General Assembly by the governor or secretary of state. Neither shall it prevent the recommitment to the Enrollment committee by joint resolution of any bill or resolution, if clerical errors are found therein after the report of the Enrollment committee had been received.

#### SIGNING AND VETO OF BILLS.

Rule 19. All bills and joint resolutions, which shall have passed both houses, shall first be signed by the speaker of the House of Representatives, and then by the president of the Senate, the latter affixing the date thereto and delivering the same to the clerk of the Senate, who shall deliver each bill so passed to the governor, taking a receipt therefor, and each joint resolution to the secretary of state, taking the latter's receipt therefor. When any bill shall have been disapproved by the governor and subsequently enacted into law over such veto, in accordance with the provisions of the constitution, the enrolled copy shall be endorsed with the record of the proceedings in each house subsequent to the veto attested by the speaker of the House and president of the Senate.

Rule 20. When a bill or joint resolution shall have passed either house, and been sent to the other for concurrence, such bill or joint resolution shall take precedence on the calendar, of all bills, joint resolutions or resolutions not yet passed or adopted by the house in which they originated; provided, that such bills or joint resolutions shall not take precedence of other bills or joint resolutions which may have been carried over from an unfinished calendar.

Rule 21. Any bill placed on the calendar for third reading, informally passed, and which was not subsequently called up for consid-

eration, shall be placed in its order at the head of the calendar of bills for third reading on the succeeding day.

Rule 22. The chairman of each committee of the Senate and House of Representatives shall, at some time before the final consideration of any bill referred to his committee, if objection thereto be made or material amendment offered in committee, give verbal or written notice to the author of the bill, fixing a time when he may be heard by the committee.

Rule 23. The yeas and nays shall be called in each house on the adoption of all joint resolutions and upon concurrence in amendments made by one house to a bill or resolution originating in the other, and upon the adoption of the reports of conference committees.

Rule 24. The Clerks of the Senate and House of Representatives shall cause a calendar for each branch of the General Assembly to be printed and placed upon the desk of each Senator and Representative before the opening of each daily session showing for the day bills for second reading, the bills for third reading, and the special orders of the day.

Rule 25. The calendar may also show such other information relating to the business of the houses as the Chair or the Clerk may desire to bring to the attention of the members.

Rule 26. When a message shall be transmitted to the General Assembly by the Governor expressing his disapproval of any bill, section, or item of a bill which has been passed by the General Assembly, the question shall be presented in each house as follows: "Shall the bill (or item or items of an appropriation bill) be passed notwithstanding the objections of the Governor?"

Rule 27. In case of the death or resignation of the clerk of either house, the deputy or first assistant clerk of either house shall be charged with the responsibility of the department of the clerk and shall perform his duties. In case of the death or resignation of both the clerk, deputy or first assistant clerk, the speaker of the House or president of the Senate, as the case may be, may designate one of the clerical force of his respective House to perform such duties.

Rule 28. The interim between any two sessions of the House, on the same day, or between two or more calendar days, when the House shall so order, shall be termed a recess; and, on reassembling at the

appointed hour, any question pending at the time of taking recess, shall be resumed without any motion to that effect.

Rule 29. The hour to which the House shall stand adjourned, from day to day, unless otherwise ordered, shall be 1:30 o'clock p. m. on Tuesdays, Wednesdays and Thursdays, and 9 o'clock a. m. on Fridays, and 5 o'clock p. m. on Mondays.

#### MOTIONS AND QUESTIONS.

Rule 30. Every motion shall be reduced to writing, if the speaker or any member shall desire it.

Rule 31. When a motion is made, it shall be stated by the Speaker or being in writing, it shall be read audibly to the House by the Speaker or Clerk, before debate.

Rule 32. After a motion is stated by the Speaker or read by the Clerk, it shall be in possession of the House, but may be withdrawn, by leave of the House, at any time before a decision or amendment.

If the Speaker doubt, or a division be called for, the House shall divide; those in the affirmative vote of the question rising from their seats, and afterwards those in the negative and the Speaker shall determine by count, announcing the result.

Rule 35. When a question is under consideration, no motion shall be in order except the following, which motions shall have precedence in the order.

1. To adjourn.
2. To take a recess.

Rule 37. When a motion is made to commit, if more than one committee is suggested, the motion shall be put upon the committees suggested, in the order in which they are named; but a motion to refer to the Committee of the Whole, to a standing committee, or to a select committee, shall have precedence in the order here named. A motion to commit may not be reconsidered.

Rule 38. A motion to postpone to a day certain, or indefinitely being decided in the negative, shall not be again allowed at the same stage of the bill or proceedings.

Rule 39. A motion to adjourn being decided in the negative, shall not be again entertained until some motion, call, order, or debate shall take place.

Rule 40. The following questions shall be decided without debate:

A motion to reconsider a vote must be made by a member voting with the prevailing side, and such motion, to be in order, must be made within the next two calendar days of actual session of the House, after such vote was taken, and the same shall take precedence of all other questions except a motion to adjourn.

Rule 46. A motion to reconsider may be made affecting a bill or resolution not in possession of the House, but the question shall not be put until the bill or resolution is returned to the House, when the question shall immediately arise, "Shall the vote be reconsidered?"

Rule 47. The vote on any question may be reconsidered by a majority of the members, a quorum being present.

Rule 50. If a motion to reconsider be laid on the table it does not carry the bill or resolution with it.

#### PREVIOUS QUESTION.

Rule 51. The previous question shall be in this form: "Shall the debate now close?" It shall be permitted when demanded by five or more members, and must be sustained by a majority vote, and, until decided, shall preclude further debate, and all amendments and motions, except one motion to adjourn, and one motion to lay on table.

Rule 52. All incidental questions, or questions of order, arising after a motion is made for the previous question, and pending such motion, shall be decided without debate, and shall not be subject to appeal.

Rule 53. On a motion for the previous question, and prior to voting on the same a call of the House shall be in order; but after the demand for the previous question shall have been sustained, no call shall be in order; and the House shall be brought to an immediate vote — first upon the pending amendments in the inverse order of their age, and then upon the main question.

Rule 54. If a motion for the previous question be not sustained, the subject under consideration shall be proceeded with the same as if the motion had not been made.

#### QUESTIONS OF ORDER.

Rule 56. All questions of order shall be decided by the Speaker without debate, but such decision shall be subject to an appeal to the House by any two members; on which appeal no member shall speak more than once, unless by leave of the House, except the member appealing, who may speak twice; and the speaker may speak in preference to any other member.

Rule 57. If the decision be in favor of the member called to order, he shall be at liberty to proceed, otherwise, he shall not be permitted to proceed without leave of a majority of the House.

When a bill has passed the House, the Clerk shall read its title, substituting the word "act" for the word "bill," and shall demand if the House agree to the title; and if the House is agreed, the Clerk shall make out the title accordingly, and shall certify the passage of the bill upon the back thereof.

MESSAGE  
OF  
JAMES M. COX  
GOVERNOR OF OHIO  
(1641)

## MESSAGE OF JAMES M. COX, GOVERNOR OF OHIO.

(January 6, 1919.)

To the General Assembly:

It is my painful duty to advise you of the death of Colonel Theodore Roosevelt, ex-President of the United States, which occurred early this morning. He was one of the nation's most illustrious sons, and by sheer force of his active ability, he identified himself as a useful citizen of the world with its great problems.

In order that the state government, acting in behalf of our people, may voice their emotions in the nation's hour of bereavement, it has been directed that the flag over the Capitol hang at half mast, and I respectfully suggest to your honorable body an early adjournment as a fitting recognition of great achievements and a life dedicated to the republic.

JAMES M. COX,  
Governor.

The following message accompanied the budget sent by the Governor to the General Assembly:

March 11, 1919.

TO THE GENERAL ASSEMBLY:

The Executive Budget for the ensuing biennium is respectfully transmitted herewith for your consideration.

The recommendations contained therein are made with the impending conditions regarding the state revenue in mind, and the few increases included are necessary, in my judgment, either because of abnormal prices now prevailing or because sound public policy demands that enlarged expenditures be made to meet situations that cannot be neglected longer on grounds of economy.

Certain increases are recommended for the state department of health, to make possible an enlarged and more efficient service, the need for which was presented in some detail in my first message to your honorable body.

The work of the Insurance Department has grown rapidly and continuously during recent years, but the appropriations therefor have remained nearly static. The time has come when an adequate force of employes must be provided, and salaries should be fixed commensurate with the technical knowledge and training demanded of the incumbents of certain of these positions.

The Budget of the Board of State Charities provides a substantially enlarged force of field agents to enable that board to care more adequately for the hundreds of homeless children which the law gives into its charge. These children must be cared for in some manner, and the promptings of humanity and economy both suggest the foster home as the proper solution.

JAMES M. COX,  
Governor.

ADDRESS  
OF  
CHARES H. FOUTS  
OF MORGAN COUNTY  
(1643)

## ADDRESS OF CHAS. H. FOUTS, OF MORGAN COUNTY.

DELIVERED IN THE HOUSE OF REPRESENTATIVES, APRIL 2, 1919,  
ON THE CHARGES OF THE GOVERNOR THAT OHIO SCHOOLS WERE TEACHING  
DISLOYALTY AND THAT THE LEGISLATURE WAS PROVIDING  
SHELTERED PLACES FOR TREASON.

Mr. Speaker, Members of the House:

At the outset I find myself confronted with one paragraph, or part of a paragraph in the Governor's message of yesterday which has a very doubtful meaning. Perhaps a more expressive word than doubtful could be used, but that particular word has been so much overworked in the last month and a half that I prefer to use the simple term, "doubtful." The paragraph reads:

"and yet it was necessary, for reasons we do not know, that the time of the executive and legislative branches of this government should be taken up in considering the question of whether this ingenious, disgraceful thing is to stop or go on."

If this means that the House of Representatives is purposely delaying the absolute annihilation of disloyal agencies, the suggestion is unwarranted. If it means that the existence of such agencies in our schools is a matter of such common knowledge that no time for investigation is required, then the pertinent inquiry — why should it be necessary for the Governor to take six weeks and have a search made in the libraries of Washington and other eastern cities to find out, about Ohio, what, inferentially, everybody ought to know? I say the meaning is quite doubtful, which is the mildest thing that can properly be said about it.

## A SINGLE PURPOSE.

I shall speak on the two motions for consideration at this hour as if the two were incorporated into a single motion. They are so related, as, taken together, to constitute an endeavor to accomplish a single purpose, viz.: to gather material out of which to make a law to meet conditions which do actually exist.

We are not called upon to guess or surmise. It is not our province to create in the public mind an apprehension of fear from a merely imaginative or speculative peril. We ought to deal with realities. We ought not to set up a straw man (even if he is a German) and then knock him down before the public gaze in order to convince the public that we belong to a "holier than thou" sect of patriots. Neither the legislature nor the Governor ought to do that. The LEGISLATURE has not been doing that.

Coming now to consider the two motions as an entirety we may observe that it undertakes to have all relevant and responsive facts cited by the message, separated from the other matter which is evidently not intended to be, and by no possibility can be, an aid in preparing a proper law on the subject involved. Such separation is necessary.

## OTHER BRANCHES OF MOTION.

The other parts of the motion ask this committee to collect and report, along with the above classified facts, so much of all former messages of the Governor as relate to the teaching of the German language and the evils resulting therefrom;

Also all the laws passed by the legislatures pursuant to recommendations of the Governor. In brief all former official acts, messages, recommendations and utterances of the Governor on the subject of a disloyal citizenship being created by reason of the teaching of the German language in our schools.

While the scope of the motion is somewhat extensive, it covers nothing except what should be productive of valuable material for aid and assistance in drawing a bill which will be comprehensive and at the same time will discriminate between the powers possessed by the assembly over private and parochial schools from those largely greater powers concerning the expenditure of public funds and the regulation of purely public institutions.

The necessity for the motion, I think, is entirely apparent. We have asked for facts. We have specified the class of facts desired. Not what Germany has been trying to do but what Ohio schools actually have done—that is the pertinent question. We have said we wanted to know what schools have made traitors. What institutions have propagated "Prussianism"? What grades have made their pupils Hun sympathizers? We want to know the past and present conditions. We ourselves can speculate as to the future. We can make deductions. And we can be assured that what has not, in the past, produced German adherents and sympathizers, will not do so now after Prussianism has been shot to pieces and a world hatred of militarism ordained and established for all time to come.

## THE DANGER GROWING LESS.

If teaching the language of the German before the war did not cause disloyalty to our flag, it will not do it now after so many of our Ohio boys and our other American boys have made the supreme sacrifice in order to preserve it unsullied. If the schools were not emphasizing GERMAN ideals at the expense of AMERICAN ideals three years ago or five years ago they are not going to do it in the future. And this is true whether there is any legislation on the subject or not. No Ohio school wants to begin a flirtation now with the unmasked and despised Hun. There may have been, in the past, illicit relations between our school system and that of Germany, and if so, we must know it. We want to know it in order that we may destroy it.

## THE SCOPE OF INQUIRY.

When we know past results we know the whole territory necessary to be visited by us as law makers. Nothing that has not produced Pro-Germanism in the past will ever produce it in the future. There is ninety per cent less danger of disloyalty or treason flowing from teaching the German language now than there was five years ago. Then it was taught with a background of public favor and with a certain blend of public admiration for many things of German creation.

Now if it is taught it will be taught amid environments that will immediately blight and kill any swing or sway of heart or brain toward whatsoever savors of German custom or habit or thought. Prussianism is now only a foul stench in our nostrils. It was more inviting and more persuasive and therefore more dangerous a few years ago. Public sentiment has relieved this legislature of a large amount of work by ridding not only our state, but the whole world of German taint and influence. Public opinion, alone and unaided by legislative enactment, will not permit schools to teach what they once taught, nor will it permit people to say, with impunity, what was once considered quite respectable and not at all unpatriotic to say.

#### EFFECT OF PUBLIC SENTIMENT.

It does not, at this time, require a state law to prevent men in public or private life from speaking or publishing such very questionable sentiments as were published without any apology by influential men in high official positions in our state. To illustrate what public opinion is doing and will do toward eliminating German propaganda, let me direct attention to a few concrete examples. I take it that you do not hear anybody in Ohio now saying or publishing:

"We want the Germans for friends and have been friendly toward them at all times since the war began;"

or this

"The war will stop when financiers discover they can make more money by stopping it than they can be continuing it;"

or this

"America wants no place in the peace conference to follow the war; it has not been our war. We want nothing to do with the settling of it. \* \* \* We do not want anything to do with their peace terms."

We do not have to pass any laws to prevent those statements being made again. Public opinion has outlined the proprieties concerning such remarks as these and I firmly believe that these proprieties will be literally observed in the future, at least all of this year and the most of next, if not longer. If these illustrations are not convincing, I will suggest one or two more, and these are sadder still. If you have any tears to shed prepare to shed 'em now. Let us proceed to view the remains before the casket is closed.

"Every indication now is that tens of thousands of these splendid people, (Germans) STILL SYMPATHIZE WITH THE FATHERLAND, still believing in the righteousness of the German cause; still hopeful THAT GERMANY WILL WIN—there is every evidence that THEY WILL VOTE FOR PRESIDENT WILSON FOR RE-ELECTION AS THE BEST MEANS OF AIDING GERMANY, as well as because the re-election of the President will be an aid to the United States."

"Our German friends are coming to understand that it does not 'just happen' that most of the rabid anti-German

people in this country are for Hughes. From Theodore Roosevelt down, the enemies of Germany ARE IN THE HUGHES BAND WAGON. \* \* \* So it is evident in this instance, as in all others, WOODROW WILSON HAS BEEN THE REAL FRIEND OF THE AMERICAN CITIZEN WHO SYMPATHIZES WITH GERMANY."

No Ohio school, public, private or parochial, is teaching that doctrine in this year 1919. It is only found today in the cemetery containing the remains of a dead past. Requiscat in pace.

#### TO FINISH THE JOB.

We want, as legislators, to aid and assist a righteously indignant people to finish up the job — if it is not already finished — of decreeing and enforcing an absolute divorcement of American government and institutions from the government and institutions of the dethroned and despised kaiser. Let this motion prevail, that we have the facts that are germane arranged in usable form by the committee named. We will then be in a position to do all necessary things which up to the present time have been left undone.

#### OFFICIAL RECOMMENDATIONS.

Then there are the other branches of the motion. They relate to the laws and messages on the subject in question. I deem it eminently proper to have these brought here that they may be unto us a shining light that "shineth more and more unto the perfect day." We should find equipment for our task in these.

It will be recalled that the present governor has laid claims to being the father of our present school system. He nursed it in its infancy. He has had the custody and control of it since it was born. At times he has pointed to it with pride. His political servants even wheeled the little infant around over the state, for exhibition, in a campaign or two.

#### THE SCHOOL SURVEY.

Let us retrospect for a moment. A few short years ago the governor issued a proclamation calling for a special session of the legislature. The paramount reason for this call was to take over and clean up and perfect the school systems of Ohio. A commission had been appointed by the governor to make a survey — complete and accurate, of the schools of the state. The governor had recommended such survey and asked for legislation to enable him to bring it about. The legislature immediately vested him (the governor) with full power to gather all the facts about ALI. public schools and text books, and teachers and methods, and systems. If there was anything wrong it was now to be disclosed. There was no chance for concealment. The searchlight was ordered to be turned on. The skeletons were commanded to come out of their closets and an investigation that would be supposed to overlook nothing was had. Of course, if there was treason, or disloyalty, or un-Americanism associated with the teaching of the German language, the governor found it through his commission. And of course, if he found it he has spoken about it officially and made recommendations

concerning it to his legislatures. Of course he has demanded that the serpent's head be crushed under the heel of the law. He could not properly have done otherwise.

#### THE GOVERNOR'S RELATION TO THE SCHOOLS.

Let us refer briefly now to the records relative to this formulated, organized and executed plan of the Governor for school renovation and for putting aside evil and establishing correct conditions.

At the very beginning of his first administration, the Governor entered upon the discharge of the duties of a self-appointed guardian of the schools of the state. Whether they wished it so or not they were compelled to become the wards of the mighty dictator who commanded whatsoever he would. His prerogative was like unto that of the Centurion of Scripture who "said unto one come and he cometh, and to another go and he goeth."

#### THE FIRST MESSAGE.

His first message to the assembly on January 1, 1914, announced the consolidation of the school system with the Governor's office. That message contained the following:

"To the Members of the Senate and House of Representatives:

"I congratulate you upon your membership in the General Assembly at one of the most auspicious moments in the history of our state: at a time when public intelligence is awakened as never before to the real importance of the relation of government to our social and economic life, and when it is responsive to the organic changes which our developing civilization clearly suggests."

Proposal twenty-seven amends Article VI of the constitution as follows:

"Provision shall be made by law for the organization, administration and control of the public school system of the state supported by public funds."

Because of its far reaching influence and the further fact that the schools form the real base to our institutions and civilization, this constitutional change imposes upon the legislature a great responsibility. It will be noted that provision is made for the organization of a school system in Ohio.

\* \* \* \*

This subject suggests possibilities of such stupendous moment to the people that legislation should be preceded by investigation. It is my judgment that a complete school survey should be made of the state. This plan has been followed by a number of states in the last few years and the conditions existent in many parts of these commonwealths have been surprising to the people.

\* \* \* \*

It is the executive recommendation that a commission consisting of not less than three persons, to be selected by the Governor, be created for the purpose of conducting a com-

plete school survey of the state and reporting a plan of school supervision. The Bureau of Municipal Research in New York City has been of untold assistance to every state undertaking this great work, and we have the assurance of co-operation from experts employed by that bureau when we begin here. It is pertinent to quote a statement recently received from William H. Allen, one of the directors of this organization. He says: "You may be interested that following the announcement of our report several weeks ago on Wisconsin rural schools, requests have come to us already from thirty-four states. Eighty-two cities, several normal colleges and many universities are using the report for text-book purposes to interest teachers in looking for deficiencies in their own environment and methods."

"The result of this survey will enable the state to provide and maintain a modern and uniform school system and bring to every community the advantages wrought by the best thought and research. The commission should by all means be empowered to work out some system of standardizing text-books in order that the expense of education might be reduced and the recurrent school book scandals made a thing of the past."

#### EMPOWERING THE GOVERNOR.

In order to carry out the suggestions of the Governor, the legislature very promptly passed a law known as Senate Bill No. 98, which made ample provision for making the survey. This bill was passed February 26th, 1913, and approved by the Governor on the 11th of March following. The title to the bill and the first section thereof reads as follows:

"To create a commission to conduct a survey of the public schools, normal schools, and the agricultural schools of the state, defining its powers, and providing appropriation therefor.

Be it enacted by the General Assembly of the State of Ohio:

Section 1. That the Governor be and is hereby authorized to appoint a commission of three members to make a survey of the public schools, the normal schools, and the agricultural schools of the state and the state administration of the same, to determine with what efficiency they are being conducted, and to report to the Governor with recommendations. Such report shall be transmitted by the Governor to the present General Assembly of Ohio."

The other sections of the law provided for payment of the expenses of the commission, authorized the employment of a secretary and other employes and investigators, gave the commission power to designate one member to sign vouchers for the payment of expenses and authorized the procuring of rooms, offices, furniture, supplies, stationery, books, periodicals, maps and all other furnishings and equipment necessary to the performance of their duties. The law further gave the commission free access to all public records, power to administer oaths, to certify to public account, to issue subpoenas and compel the attendance of witnesses, to require witnesses to produce papers, books and documents

of all kinds and character, with power to punish persons refusing to comply with any order of the commission and gave to the commission full and complete power and authority to secure all the information about all the schools in the state that was necessary to be known in order to make a wholesale cleaning up of all undesirable existing conditions. The act further contained an emergency clause as follows:

"Section 9. This act is hereby declared to be an emergency act and that its enactment is necessary for the immediate preservation of the public health, safety and welfare. The necessity therefor lies in the fact that the public health, safety and welfare requires that the present General Assembly during its deliberation upon measures relating to education shall have full information on all these matters."

#### EXERCISING THE AUTHORITY.

By virtue of the authority conferred by said law, the Governor appointed his commission and it went forth to engage upon its work with ample power and full equipment, made its investigation, gathered the facts and made its report to the Governor. These facts were gathered at large expense, they should be in the possession of somebody under the jurisdiction of the Governor's office and if treason or disloyalty or Prussianism or German propaganda were being taught in any public school in Ohio, that information ought to appear in the facts reported by the commission making the survey. With all these facts at his command, we have a right to conclude whether we can find it or not, that there exists some official act or utterance or recommendation on the part of the Governor to banish from the school system, so surveyed, whatever was pernicious, seditious or even "insidious" in existence at that time. We have a right to inquire what that survey disclosed on the subject of the teaching of the German language. The resolution passed by this House is a rightful call for just such facts as ought to have been reported through the Governor's commission to the GOVERNOR and through the Governor to the General Assembly.

#### SPECIAL SESSION CALLED.

The work of the commission was supposed to be exhaustive and was evidently considered by the Governor to be correct and accurate. A special session of the legislature was called by a proclamation issued January 14th, 1914, in which the following statements appear:

"By virtue of the authority vested in me by the Constitution of the State of Ohio, I, James M. Cox, Governor of said state, do hereby require the Eightieth General Assembly of Ohio to convene at the State House in Columbus, at 10:00 a. m. on Monday, January 19th, for the purpose of considering such measures as should receive legislative action at this time."

\* \* \* \*

"I know of nothing more fitting than that the General Assembly of our state should be brought together for the primary purpose of adjusting our school system to the progress of the day. The constitution, as amended, carries a direct mandate to the General Assembly in these words:

"Provision shall be made by law for the organization, administration and control of the public school system of the state, supported by public funds, provided that each school district embraced wholly or in part within any city, shall have the power by referendum vote to determine for itself the number of members and the organization of the district board of education and provision shall be made by law for the exercise of this power by said school districts."

"The ruling thought in this provision is that while the state gave to municipalities increased rights of home rule, it reserved to itself the original control of the school system. There is nothing more fundamental in our scheme of state government than the principle of giving to the law making body such power as will insure a unified control over the educational system of the state. If the police power of the Commonwealth is to be exercised, for the prevention of crime, the protection of property, the preservation of human rights, the prevention of disease and the conservation of public health, then public policy certainly demands lodgment of positive power in the same hands as a guarantee against sectional atrophy or neglect in our educational system.

"The General Assembly at its last session authorized a survey of school conditions by a commission appointed by the Governor. This organization has done its work so completely as to render the service so given a distinct contribution to our people. The formal report of the Commission will be submitted in full to the General Assembly."

\* \* \* \*

"The state, under the Constitution, is given a stated authority, and it must assume the responsibility which goes with it. Educational authorities in every part of the United States are agreed that the step this state is about to take will give it high rank in matters of education. Every member of the General Assembly who has, by the circumstance of time and events, been enabled to participate in this great work will find that it is his greatest contribution to the race."

#### ASSUMING PERFORMANCE OF DUTY.

With such powers granted to make a most thorough examination, we have a right to assume that the evils resulting from German teaching were gathered, and that the Governor did something about it, and that the legislature followed the instructions of their chief. So let this committee gather this material. It ought to be edifying and instructive and no doubt it is.

If by accident or oversight, or any other reason, disloyalty and Prussianism was overlooked in the survey or did not then exist in our schools or among our people, but has arisen since the survey was made, still the Governor has been in a position to have knowledge of it at its very inception and he has had ample opportunity to apprise the legislature before his special message of February 20th was sent to the Assembly.

## THE EXHAUSTIVE MESSAGE.

He delivered a message at the joint session of Senate and House in this hall at the beginning of the present session. The message covered twenty-eight pages of closely typewritten matter and was presumably exhaustive in respect to all important affairs of state which were demanding the attention of the Assembly for correction by legislation. You will recall that he commented at length on, presumably, all the important subjects with which we should deal in legislation. He enlightened us on "threatened disruption of police force"—about automobile tags—about venereal diseases—about night schools for convicts and about Holsteins and different grades of cattle and how to fatten and market them. He even went into details sufficiently to inform us what profit had been derived by the state from the breeding and raising of two bull calves.

Of course, if our schools were poisoning the minds of the children, the Governor recommended a remedy. I have not found such a recommendation, but logically it must necessarily exist. It would be preposterous to suppose there was an omission of such a vitally significant subject matter.

I know that kings have sported while great tragedies have been planned and executed. I know that generals have engaged in drunken revelry while their armies went down to defeat for want of a leader; I know it is claimed that Nero fiddled while Rome burned. But these incidents are abnormal. They belong to a past civilization. They do not make it at all conceivable that our Governor was complacently admiring the bulls while treason's hand clutched the throats of our school children. No, while he was giving time in instructing us on all the various subjects discussed in his message, he must have emphasized this most threatening of all pernicious influences and propaganda. It is unreasonable to think that he did not. He must have said it. He owed it to this legislature and to the people of the state, to say it. We must assume that the Chief Executive of this great state did what it was his paramount duty to do.

If a remedy was as urgent as he now claims it to be, then while delivering his lengthy message to the Assembly on January 13th, 1919, his official duty was very emphatically calling the Governor FROM THE CATTLE BARN TO THE SCHOOL HOUSE.

## INVESTIGATE AND LEGISLATE.

I urge you, gentlemen, to pass this motion. Let us follow the advice of the Governor himself, given to the General Assembly on January 14, 1914, when, referring to school legislation, he said: "This subject suggests possibilities of such stupendous moment to the people that legislation should be preceded by investigation."

When the committee makes its report, we should be fully armed and equipped to march forward with no uncertain tread. We will then know the haunts of the monster—its habits and power—and with a firm and steady hand we will sink the dagger deep into its venomous heart.

## REPORT OF SURVEY.

With this reference to the recent purification of the schools, we may pass to the altogether appropriate suggestion that with all this data and

information in his possession, it would have been eminently proper for the Governor, in his present message to this House, to have told us what that survey did show as to the evil results following the teaching of the German language. I think no one will deny that we should have the benefit of those findings. The Governor's familiarity with the subject would have enabled him very easily to supply this information at this time and without sending to Washington to find out about ourselves. Candor and frankness demanded that he do it. He has not seen fit, however, to make this disclosure and it thus became necessary for this House to impose upon some committee the duty of making an investigation to ascertain what the Survey Commission did find to exist at the time the survey was made. It would seem that the burden of this work must now be placed with the special committee to which reference is made in the motion to refer.

#### LEARNING THE TRUTH.

If, on the other hand, and this is altogether possible, an entirely wholesome and patriotic condition exists in every section of our state, if the youth and the aged and those in middle life are genuinely loyal to our country and her laws; if service flags of blue and of gold are hanging in the windows of our institutions of learning; if our communities are all teeming with patriotic fervor and love for all things American; if those who have spoken or learned or taught the German language shall be found to have been doing their full share in heaped and rounded measure in buying Liberty Bonds and Thrift Stamps and in contributing to the Red Cross and Y. M. C. A., and Knights of Columbus and the Salvation Army and other kindred organizations, and in sending their fathers and brothers and sons and lovers to fight in France or to sleep in Flanders field; if these are the conditions which are found to exist instead of the literally suggested one of "treason and disloyalty" somewhere near at hand, still our research for facts will result in profit.

In addition to knowing that Ohio is untainted with disloyalty and un-Americanism, we will also know that for the certain motive which prompted the recent attack on the Comings bill and its author, we must look in some other direction than to present or past conditions. We will then be called on to distinguish between partisan politics and zealous solicitation for the public good; between fiction and fact; between camouflage and candor.

#### FINDINGS OF PUBLIC INFORMATION COMMITTEE.

In conclusion, permit me to quote from George Creel, Chairman of the Committee on Public Information and spokesman for the National Administration at Washington on the subject under investigation. In an article published in the March number of Everybody's Magazine, he deals with the question, "Our Aliens; Were They Loyal or Disloyal?" He does not revel in abstraction or futurities but states facts — undeniable and carefully collected facts — which drive irresistibly to the conclusion that our alien population, of divers races and tongues, are nevertheless loyal citizens and in the main real patriots.

The following excerpts from Mr. Creel's article very forcibly illustrate the attitude of a class of zealots who were more suspicious than just.

He says:

"There is a certain sect in America, for lack of a more forceful epithet, may be termed 'Americanizers.' It was particularly active in the months that followed April, 1917. With a passion for minding other people's business that is the distinguishing mark of the sect, some of its disciples descended upon the humble tenement home of a Bohemian family in Chicago during the first summer of the war. 'We are here,' the spokesman announced impressively, 'in the interest of Americanization.'

"'I am sorry,' faltered the woman of the house, 'but you will have to come back next week.'

"'What!' The cry was a choice compound of protest and reproach. 'You mean that you have no time for our message! That you want to put off your entrance into American life?'

"'No, no!' The poor Bohemian woman fell straightway into a panic, for not even a policeman has the austere authoritativeness of those who elect themselves to be light bringers. 'We're perfectly willing to be Americanized. But there's nobody home but me. All the boys volunteered, my man's working on munitions and all the rest are out selling Liberty Bonds. I don't want you to get mad, but can't you come back next week?'

"This incident, true as gospel even if anecdotal, serves the purpose of volumes in setting forth accurately the war attitude of both native born and immigrant aliens. On the part of the native American there was often a firm conviction that our declaration of war carried an instant knowledge of English with it. On the part of the overwhelming majority of aliens there was an almost passionate desire to serve America that was impeded at every turn by the meanness of chauvinism and the brutalities of prejudice, as well as the shortsightedness of ignorance."

#### SPEAKING GERMAN WHILE FIGHTING GERMANY.

The author uses the above and other incidents to emphasize the fact as he states it, "that for the most part, those of foreign birth or descent kept the faith in spite of every bitterness." He further says: "Never was a country so thoroughly contra-espionaged! Not a pin dropped in the home of anyone with a foreign name but that it rang like thunder on the inner ear of some listening sleuth!" And with what result?

After commenting on the impossibility of any disloyalist to have escaped the meshes of so fine a net, Mr. Creel says: "Taken all in all, no belligerent, not even those invaded, made as good a record of unity and loyalty."

The same author after speaking of the surprisingly small per cent of alien population that were not altogether loyal, uses this language:

"But against this minority must be balanced an overwhelming majority of Germans who offered their lives to cleanse the honor stained by the treachery and ingratitude of others."

"It is estimated by military authorities that 10 to 15 per cent of the American Expeditionary Forces were men of German birth or origin. How they conducted themselves on the firing line was told by Charles H. Grasty, writing in the New York Times of Sept. 5th:

"'From what I have seen of this war, I have become convinced that we can trust all the various new elements in our population as fully as those of Revolutionary stock. I have heard of one whole company in another division where German was the language spoken. Not a single case of disloyalty, not one of treason—in a round way, perhaps every fourth name in the ranks is German. We have no better soldiers.'"

Mr. Frank A. Smith, writing in the Chicago Tribune, also gave testimony:

"An officer of an American Division, questioned why this particular division had shown such eagerness to fight, answered: 'Well, you see, this unit consists of forty-one per cent Americans of German descent. And all of them are volunteers'."

#### THE CHALLENGE.

I am not, by these references, giving or intending to give any personal endorsement to the teaching of the German language. But I am issuing a challenge to those who make an assault on German language on the grounds that those who speak it or teach it or learn it are disloyal or unpatriotic, to prove their charge. High authority in the councils of the Democratic party have said it is not true. If the dominant power of that party in Ohio says it is true, it may become the duty of this Assembly to decide who is right and who is wrong. The truth will indicate to this body the path of duty.
